

Luigi Bormioli

ART AND SCIENCE, FASHION AND DESIGN:
ITALIAN LIFESTYLE.

“ART IS LONG AND TIME IS FLEETING”: THUS SPOKE THE GREAT LONGFELLOW.

It is not easy to be content with only one life, even if lived in an artistic way. How many fathers hoped that their children, generation after generation, could follow in their footsteps and continue their job. This hope was not always based on mere patrimonial reasons or on subjective existential reasons. Many of these fathers, sharing Hegel's school of thought, felt that their work, being in Art's service, is never accomplished for good. In accordance with Life, Life with capital L, which carries on never-ending beyond

individual lives. If we truly believe in the Spirit that becomes History: then which more convincing testimony of evolution than the one of glass craftsmanship which, continually confirmed itself and at the same time totally transformed throughout the centuries?

Around the year one thousand, in the area of Altare, near Genova, a district of "magistri vitriorum" (glass masters) was found, in addition to the renowned Venetians one. Two maritime republics: the glass was blown where the sea is with the sand.

These intrepid masters encouraged their boldness for adventure relying in what today we would call know-how. Amongst these masters the Bormioli soon became prominent. Every now and then, they would change their name in Bormiol, they would pack their belongings and, as ancient commuters, they would go to France, experiencing a different type of Europe, marked by opportunities for artists and craftsmen.

At the beginning of the nineteenth century, during a family diaspora, the father of my grandfather's grandfather (whose name was obviously Luigi Bormioli) left Liguria where he was born to seek fortune in the Parma area. A lot of efforts, dreams, disenchantment! And yet as always, alive and tenacious, was their passion for their craft.

Even when, around 1950, industrial machinery and technological innovations started to be widely used changing radically the environment, the structures and the processes. The secret of this indestructible love of "white heat" has always consisted of the virile, exciting and even mimetically burning capacity to win the challenge against the apparently indomitable fire. So when my father Luigi invented a new market segment for blown tableware products forty years ago, by industrialising the manufacturing of elegant products at industrial prices, in that occasion too, the natural focus was on the technical productive aspect rather than on marketing logics.

Nowadays, the undersigned is the only one from the Bormioli families who still manufactures glass. At the service of what is right and beautiful, taking pride of a thousand-year privilege, those who work for Bormioli Luigi company, inspired by the magic of the glass, define every day the true meaning of their work and try to innovate keeping faithful to the culture of their true origins. These men intend to promote a fascinating aesthetic.

An aesthetic, just like few others, able to interpret in an ingenious way the sacredness of all the things existing in this world and their interrelationships: Glass as a metaphor of Life.

A handwritten signature in black ink that reads "Alberto Bormioli". The signature is written in a cursive, flowing style.

ART AND SCIENCE, FASHION AND DESIGN: ITALIAN LIFESTYLE

Luigi Bormioli: the designer label of glassmaking, gives expression of the Made in Italy throughout the world. Art, creativity, aesthetic inventiveness, continuous innovation, quality standards are all key factors and synonymous of the brand Luigi Bormioli. The company's size allows for co-operation with both the big multinational groups as well as small to medium size companies, thanks to its technical ability in projects development, in constant improvement, and to its quality levels. The knowledgeable understanding of the market together with team work amongst the various functions in the organization (marketing, sales, technical and logistics) combined with a professional workforce with a strong sense of belonging, significantly contribute to the development of unique and innovative products. Bormioli Luigi has become the chosen business partner of the world's top companies in the tableware and perfumery industry thanks to its exceptional high standards, making a decisive contribution to their success.

Bormioli Luigi SpA has implemented and maintains a Quality Management System in compliance with UNI EN ISO 9001:2008 standards. The company's flexibility and ability to develop projects in the shortest of leadtimes, timely and reliable deliveries, fast reaction times to customers' needs, are all key factors of Bormioli Luigi's strategy. Bormioli Luigi is renowned worldwide as a leading company entirely dedicated at satisfying its customers' needs. Bormioli Luigi produces not only with high quality levels, but also totally complies with safeguarding the workforce's security and health, and it is committed to safeguarding the environment by the pursuit of an eco-friendly development aimed at bringing down emissions in the atmosphere, such as CO2. Bormioli Luigi SpA has implemented and maintains an Environment Management System in compliance with UNI EN ISO 14001:2004 standards.

THE GLASS

As well as for its exceptional designs, the most prestigious Made in Italy for the table, home and design is made distinctive by its first-class characteristic: Luigi Bormioli's glass.

The use of:

- purest raw materials,
- advanced and eco-friendly melting processes,
- highly innovative production processes, enable the achievement of a glass:
 - extra pure and totally transparent,
 - sparkling,
 - longer lasting,
 - resistant to breakage.

This particular glass respects, maintains and enhances the organoleptic characteristics, the real aromas and flavours of foods and drinks contained. Our glass does not contain any heavy metals and it is produced with extremely low emission levels in the atmosphere. Through the years, thanks to its tradition and experience and the continuous efforts of its R&D department, Bormioli Luigi has developed various types of innovative glass:

- SON.hyx High-Tech crystal glass
- SPARKX Ultra Clear and durable glass

to increase the value of its products and sales.

BLOWN STEMWARE AND TUMBLERS FEATURES

INNOVATIONS

GLASS TREATMENTS	10
WINE GLASS SENSORY ANALYSIS	11
INNOVATIVE MATERIAL SON.HYX	12
INNOVATIVE MATERIAL SPARKX	14

TITANIUM Reinforced®

Permanent anti abrasion treatment on the glass' stems. It is a process developed and carried by the Bormioli Luigi Research and Development Department by applying NANOTECHNOLOGIES directly on the glass' stems. This process hardens the glass surface increasing its resistance to abrasions, which are responsible for the fragility of the stems during daily usage. It increases the stems' resistance to breakages by 140%, permanently.

This stems' coating process is:

The first in the world

- The original and patented (nr. EP20100153150)
- The most efficient

Luig Bormioli's Titanium reinforced treatment is the most reliable, as it:

- Guarantees the stems' resistance to breakages even after multiple industrial washing cycles
- Glass sparkle and transparency is maintained
- Avoids any glass discoloration.

Some FOLLOWERS, trying to imitate, use treatments that disappear after some industrial washing cycles also leaving on the glass unwanted optical effects, such as iridescence, and stems with reduced resistance to breakages.

ANTI-DRIP coating

A revolutionary treatment that prevents dripping:

- No more drops of wine staining the exterior of the carafe or decanter nor the table cloth.
- The wine flows out with no friction and it pours perfectly into the stemglasses.
- The drops of wine are kept inside the container.

The special Anti-Drip coating is carried out on the glass surface using a high technology process:

- Resistant to washes.
- Repellent to dirt and limestone.
- Does not leave any wine deposit along the neck during the filling and pouring process.
- Completely transparent.
- Improved resistance to wear and tear.
- Prevents the potential corrosion of glass.
- Completely inert and suitable for food use without affecting the organoleptic properties of the wine.
- Easy to clean.

SON.hyx[®]

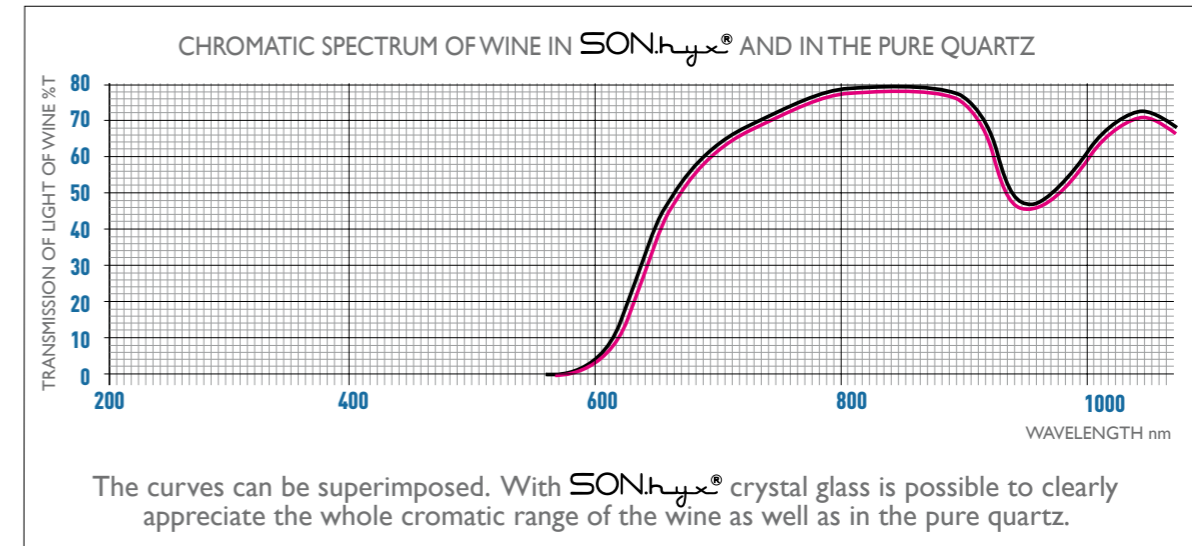

Crystal glass par excellence

Developed and registered by Bormioli Luigi.
 A high-tech blown lead-free crystal glass that does not contain any heavy metals.
 This glass present outstanding chemical, optical and mechanical properties.

Ultra clear, totally transparent and **sparkling**
 according to ISO/PAS iwa 8:2009

Transmission of light	T ≈ 91%	Natural look of the colour of the wine
Wine colour efficiency	R ≈ 99,99%	

Strong
 High resistance to breakage

Resistance of the rim

Resistance to impact test

Resistance to twisting of stems

Resistant to washing cycles
 No alteration in transparency and brilliance over **4.000** industrial washing cycles.

Sound amplifier

Eco- friendly
 Lead and other heavy metal free.
 Produced with low CO₂ emission level.

Mechanical resistance is markedly enhanced thanks to appropriate production processes. Glassware made of crystal glass have an improved resistance to mechanical shocks. In fact, laboratory tests have demonstrated the improvements shown above. Due to these improved processes the surface of the glass does not have any weak points thus reducing the glass fragility and improving its mechanical resistance.

Luigi Bormioli Research Team by means of spectrophotometric measures has obtained this new glass outstandingly transparent and sparkling.

The outcoming measures are extremely in line with the consumers perception of quality and transparency.

This new material has an extremely low iron content so that it does not interfere with both the transparency and the colorimetric purity of glass. Furthermore, is lead and other heavy metal free. is classified Ultra Clear according to ISO/PAS IWA 8:2009.

Lightness

represents the glass capability to let the light go through, basically it measures the glass transparency. Lightness values superior to 98.8 guarantee an excellent transparency.

Chroma

represents the glass purity, basically it measures the degree of colourless. Chroma values inferior to 0.5 do not modify the real colour of the liquid contained.

Iron oxide

(unavoidably present in glass) inferior to 140 ppm prevents unsightly colourings such as green/blue - green/yellow. This is achieved by employing only the purest of raw materials and an extremely close production process control.

Compliance to all 3 above mentioned values results in an Ultra Clear glass with a high colour efficiency (R) of the liquid contained (R>99.99%).

The **Cartesian axis graph**, in terms of chromatic coordinates (a,b), shows the positioning of sparkx.

Pure and transparent
According to ISO/PAS IWA 8:2009.

Lightness 'L' superior to **98.8**
Chroma 'C' inferior to **0.5**
Iron oxide inferior to **140 ppm**

Durable
Resistance to mechanical shocks increased by **30 %**.

Resistant to industrial washing
Resistant to over **2000** industrial washing cycles
Sparkling maintained

Eco- friendly
Lead and other heavy metal free.

CERTIFICATION FOR GAUGE MARKS

Bormioli Luigi S.p.A. has been awarded the new CE certification to allow the marking of gauge marks on stemware, glassware and carafes according to the new European MID legislation (2004/22/CE)

Please refer to our catalogue and pricelists for specific gauged items, marked by the symbol | - | washing cycles also leaving on the glass unwanted optical effects, such as iridescence, and stems with reduced resistance to breakages.

GLASS, 5000 YEARS OF EXPERIENCE, IS THE CLEAR CHOICE!

• ECO

Glass is virtually infinitely recyclable and reduces environmental pollution by 14÷20%. Its production generates extremely very low level of CO2 emissions.

• DESIGN

Through the use of design, the excellence of glass is emphasized encouraging the purchase of products made of this eco-friendly material.

Furthermore, glass enhances the characteristics and value of any product contained.

• HEALTH

Glass can contain without any problems for one's health drinks, food, medicines, perfumes, etc.. as it is a totally inert material. The glass is not made using petroleum or toxic chemicals.

WINE GLASS SENSORY ANALYSIS CENTRO STUDI ASSAGGIATORI

Sensory efficiency and emotional profile of all stemglasses tested by "Centro Studi Assaggiatori" using the Advanced Big Sensory Test® and the Analogic-Affective Big Sensory Test®. Centro Studi Assaggiatori is the research unit on the most advanced and complete sensory assessment in Italy. Founded in 1990, each year the Centro Studi Assaggiatori carries out thousands of tests on consumers in order to assess the perceived quality of products and services. Nowadays, it owns one of the biggest archives in Italy which reflects the changes in tastes and trends. Centro Studi Assaggiatori cooperates with many Italian and foreign Universities in research studies. Centro Studi Assaggiatori thanks to its courses in sensory analysis have provided basic knowledge to a large number of sensory experts and have trained hundreds judges and panel leaders for companies and organizations. Furthermore, Centro Studi Assaggiatori is the publisher of L'Assaggio, the only Italian magazine dedicated to sensory analysis and of a series of books on this subject. ACCADEMIA Luigi Bormioli has worked closely with Centro Studi Assaggiatori on sensory tests on stemglasses for wine tasting and distillates.

LEGENDA

High-Tech blown lead free crystal glass break resistant and dishwasher safe.

Ultra Clear and durable Glass according to ISO/PAS IWA 8:2009 lead and heavy metal free.

Permanent anti-abrasion treatment applied directly to the glass' stems to increase resistance to breakages.

Revolutionary treatment that prevents dripping.

Mouth-blown, hand made products exclusive to Luigi Bormioli.

Istituto Eccellenze Italiane Certificate is an association of companies whose aim is to identify, codify and sensorially certify the excellence of Made in Italy.

Products tested by Centro Studi Assaggiatori Italiano.

Special treatment and/or accentuated epicure (indentation) create extra persistent flow of bubbles.

For information visit our website www.bormioliluigi.com and click on "25 Year Guarantee".

Items available with specific gauge mark.

Mass coloured glass, permanent, suitable for food contact and dishwasher safe.

COLLECTIONS STEMGLASSES, WINE & MORE

COLLECTIONS OF CLASSIC AND CONTEMPORARY STEMWARE, DRINKWARE AND ACCESSORIES DESIGNED TO CATER TO EVERY NEED FROM A CONTEMPORARY TO A MORE FORMAL TABLE SETTING AND TO ENTERTAIN IN STYLE AT HOME AS WELL AS A WIDE AND COMPREHENSIVE RANGE OF COLLECTIONS SUITABLE FOR FOODSERVICE.

WINE

FAST WINE AERATION

When swirling the wine the helical incision inside the bowl increases turbulence resulting in a greater air-wine mixture, and the time of wine aeration is reduced to 15 seconds.

As a result the acid and tannic components in the wine are reduced which enhances the fruity aromas and flavors.

FLUTE

EXTRA FLOW OF BUBBLE

The helical incision inside the bowl facilitates a flowing stream of bubbles resulting in pleasant and enjoyable optical effects that enhances the content.

WINE TASTING D.O.C. 21.5 CL

The 21.5 cl D.O.C. stemglass represents the standard size ISO (International Standards Organisation) for wine tasting. The ISO wine glass has a distinctive shape that enables the wine to be swirled easily without any spillage. The rim helps contain all the delightful aromas and enhances the appreciation.

ISO DIMENSIONS

This stemglass is scientifically designed to be used across a broad range of wine styles, all wines can be sampled from just one glass. The right wine quantity to be tested is 5 cl.

I MERAVIGLIOSI

EXTRA - LIGHT
WINE GLASS PAR EXCELLENCE

A new shape - simple and perfect - and a new production technology that reproduces artisanal techniques. These two important parameters paved the way for the realization of these wine glasses.

- Super-light and balanced when tasting
- Robust and flexible
- The glasses transmit the quality and the intense aroma of the wine.
- Designed to develop an excellent mouthfeel by creating a perfect equilibrium amongst various components of flavour.
- The glasses allow for a pleasant aftertaste
- The bowl's shape creates a unique decanter effect.

True Wine Aroma powered by the aromatic chamber and a flat base bowl.

True Wine Flavour powered by the bowl profile and perfect rim.

True Wine Colour powered by Son.hyx Crystal Glass and perfect glass distribution.

(1) — Ultra-thin rim - 0.95mm.

(2) — Perfect glass distribution.

(3) — The profile of the bowl ensures an aromatic flow as well as a non-turbulent flow of the wine.

(4) — The bowl's flat base ensures a high aeration of the wine as it increases the headspace, thus reproducing a decanter effect.

(5) — Thin stem (5mm)
Titanium reinforced.

(6) — Flat and stable base.

INTENSO

LONG INTENSE AROMATIC PERSISTENCE (I.A.P.)

Ideal for an elegant and distinguished table setting, a range of stemware with high sensorial perception reducing the wine flaws. The range has been developed applying scientific methods: shapes and dimensions guarantee the pleasantness of wine reducing to a minimum the wine flaws, if present. Tested by master Sommeliers, their sensory performances have been confirmed. The aromatic chamber (head space) has been developed to enhance only the specific aromas of the grape, aromas relevant to the vinification method and those due to the age of the wine.

The olfactory intensity of the aroma families:

Floral - Fruity - Vegetable - Spicy (including wooden and toasted aromas) are amplified, compared to standard stemware, whilst reducing unpleasant ones. The aromas are full, intense and renewed continuously.

The correct oxygenation index of these stemglasses reduces the acidic flavor and that of tannins resulting in a perfect taste balance.

For red wines we found balanced tactile-gustatory perceptions of the various flavours and sensations: Acidity = fresh taste - Alcohol = moderate taste - Softness = round taste - Astringency = flowing taste

For white wines, since the astringency flavour is not present, we found an excellent balance amongst acidity, alcohol and softness.

After having swallowed the wine, the Intense Aromatic Persistence (I.A.P. = number of seconds during which the aromas persist) is very high over 11 seconds, typical of exceptional wine.

Each Intenso stemglass has been developed and named on the basis of the age of wine:

- INTENSO 740: All red wines aged over 5 years
- INTENSO 550: All red wines aged up to 5 years
- INTENSO 450: All white wines aged over 3 years
- INTENSO 350: All white wines aged up to 3 years
- INTENSO Flute: Spumante, Prosecco and Champagne

PALACE HYDROSOMMELIER

LET'S LEARN TO APPRECIATE WATER

by drinking from the right glass:
PALACE HYDROSOMMELIER

In order to taste water and fully appreciate the various sensations, specific tumblers or stemglasses are required, similar to the art of wine tasting. Glasses should be made in perfectly transparent glass, with thin rims (so as not to alter the taste) and with a specific shape to maintain the serving temperature, particularly for those waters that should be drunk cold.

We created 3 specific glasses for 3 types of water:

- Sparkling mineral water
- Still mineral water
- Tonic water

EACH WATER HAS ITS OWN TASTE

MINERAL WATERS

Mineral waters are not all the same, they can vary in taste and personality, just like wine.

Taste and personality depend mainly on the degree of mineralisation, although the taste of water can be modified by the percentage of the carbon dioxide added. Lighter mineral waters are not easily identifiable; waters that are not identifiable at all have few milligrams of dry residue whereas a higher presence of dissolved salts and the type of water control give them a precise identity: some waters, in fact, present a pleasant sour note, others leave a sensation of lightness and freshness while some others have a calcareous or bitter aftertaste. As far as effervescence is concerned, sparkling mineral waters, present a wide range of perlage which is the result of the amount of gas in the water.

Interestingly to know, “organoleptic inert” (very little taste) waters are generally preferred at home, whereas in restaurants are usually served tastier and more flavoured waters.

Similar to wine tasting, simple rules need to be followed in order to enhance the taste of mineral waters. Still mineral waters should never be drunk cold; the low temperature, in fact, has an anesthetic effect on the taste buds and repressing the organoleptic characteristics of the water. On the contrary, (natural and non-natural) sparkling waters should be drunk cold and are recommended with seasoned food: effervescence helps “clean the mouth” and favours digestion.

ORGANOLEPTIC PARAMETERS OF MINERAL WATERS

CLARITY	Water must be perfectly clear and transparent.
COLOUR	Water must be colourless with little bluish reflection.
EFFERVESCENCE	Large bubbles indicate a high percentage of gas, medium sized bubbles correspond to an average quantity of gas whereas small bubbles are associated with a low presence of gas.
SMELL	Water must not release any unpleasant smell. In certain cases, waters can have a sulphureous smell, this is due to the volcanic area of origins.
TASTE	The taste of good quality water is pleasant and is due to the salts and gas dissolved in it. Water is defined as tasteless or having a delicate taste. During water tasting bitter, sulphureous, calcareous or acidic flavours might be perceived.

TONIC WATER

Tonic water consists of water with the addition of carbon dioxide, sugar and natural flavours, including quinine that gives it its typical bitter taste. The combination of these elements confer to the product its typical bittersweet taste. Tonic water can be consumed as is (possibly with a slice of lemon) or as an aperitif and thirst-quenching drink, generally must be drunk cold. In order to contrast the marked bitter taste other aromatic drinks are largely used such as gin: the famous long drink “gin tonic”.

CURIOSITY

Tonic water, due to the presence of quinine, has fluorescent properties when exposed to ultraviolet rays.

THE RIGHT GLASSES: PALACE HYDROSOMMELIER

a) **Stemglass for sparkling mineral water** (with a special treatment aimed at enhancing bubbles)

This stemglass has been designed so not to alter the cool temperature of the water with the hand. By holding the stem between the thumb and the index finger it is possible to observe the clarity of the water and the development of the bubbles without touching the bowl with the hands.

The diameter of the glass bowl and its shape are such as to maximise the taste perception of the different sparkling mineral waters.

b) **Tumbler for still mineral water.**

It has almost the same shape of the bowl of the stemglass for sparkling mineral waters. Very elegant, suitable for the “mise en place” together with the Palace range elegant wine stemglasses.

c) **Tumbler for tonic water:**

Slim shape, slightly curved in rim with 14° inclination in order to enhance the bitter aftertaste of the drink.

Mouth diameter designed to allow for an appropriate inclination of the head to make sipping easier without any lemon's slice and/or ice used in the beverage interfering.

Tumbler also suitable for “gin&tonic” and “vodka & tonic”.

SUPER

ADVANCED WINE STEMWARE

Internal studies, test results and analysis through chromatography lead us to design a range of stemglasses highly innovative for shape and sensorial performance (Advanced Wine Stemware).

These stemglasses adapt themselves to every style of wine (both for grape varietal and age of the wine) expressing the most of the aromatic and taste characteristics of each style of wine contained.

A Super stemglass behaviour is unique: it filters only the most significant aromas of the wine contained. In standard stemglasses these significant aromas will remain hidden and/or fade away from the aromatic chamber.

From these findings the range has been developed and it comprises universal stemglasses: for all red wines, for all white wines, for all rosè wines and for all spumante, champagne and sparkling wines, regardless of the age each type of wines.

SUPER 800

for aged and tannin-rich red wines

SUPER 600

High Aromatic Filter for all red wines

SUPER 350

High Aromatic Filter for all white and rosè wines

SUPER 200

(flute) High Aromatic Filter for all sparkling wines

Super is an elegant collection for the mise-en-place comprised of 4 universal and innovative stemglasses apt to enhance the aromatic-gustatory perception of any type of wine.

SUPREMO

WINE AMBASSADOR

The stemglasses of the Supremo range have been designed by Bormioli Luigi's designers in collaboration with Centro Studi Assaggiatori (the international specialists of the wine sensorial analysis).

The stemglasses are produced in machine blown SON.hyx crystal glass and with a new process making them lighter and thinner while maintaining their strength.

The bowl shapes are innovative and elegant and have unique sensorial perceptions: emphasizing the wine's aromas during their development in the bowl while lessening the alcoholic element. In this way the wine's aromas and flavours develop pleasantly in the bowl.

After 10 minutes, all wines contained in a Supremo wine glass lose the alcoholic aroma elements while the wine's specific aromatic characteristics are enhanced to the fullest.

The stemglass design is suitable for specific wine varieties.

SUPREMO

WINE AMBASSADOR

(1)

The chimney balances the wine aromas with a low alcoholic content and its cylindrical shape directs the wine to the centre of the tongue.

(2)

The conical shape condenses the alcoholic vapours so that in the aromatic chamber only the wine aromas will develop.

(3)

The smooth connection between the conical and convex shape avoids the breakage of the aromatic molecules during the wine swirling process.

(4)

The Convex surface enables a high wine oxidation on the surface (A) with a low oxidation underneath (B), retaining the most delicate aromas and facilitating their pleasant development.

(5)

Epicure (indentation) at the base of the bowl, shows the real wine colour reflection.

(6)

Permanent ultra break-resistant stem (Titanium reinforced).

TENTAZIONI

WINE GLASS FOR CONNOISSEURS

The glasses in the Tentazioni line are designed to preserve the entire aromatic structure of the wine, mitigating the volatile alcoholic component. This allows the aromas to be released in all their glory as the wine leaves the bowl, enhancing the pleasure of tasting.

As shown in the photo, the bowl is shaped to create a unique aromatic "ring" effect, preventing interference between volatile alcohol and the wine aromas.

And that's not all. The double chimney holds the aromatic molecules in the headspace for a particularly long time without releasing them into the air. This enhances the fruity taste of the wine while the acidic and bitter components are minimised.

The shape and dimensions of the Tentazioni glasses were conceived using an experimental process.

The diameter, "D", of the free surface of the wine in the bowl (10 cl) is approximately 8 times the depth (d) of the wine. This leads to two results:

a) High levels of wine aeration.

b) The molecules of alcohol move rapidly toward the walls of the bowl, leaving only the aromatic molecules of the wine in the central part. This creates a "ring" aromatic distribution, as illustrated:

- The red lines represent the alcoholic components.
- The green lines represent the aromas of the wine.

The wide rounded bowl allows the complex aromas to spread and aerate, highlighting the richness of their fragrances. The wine can also be swirled horizontally in the cup without rising up or leaving the alcohol on the walls which would interfere with the aromatic structure.

This design allowed for the creation of specialised Tester glasses for different styles of wine, such as Orange Wines and Prosecco, and for Spirits.

ORANGE WINES

The so-called Orange Wines represent a new style of wine, referring to wines produced from white grapes through prolonged maceration. During fermentation, the must remains in contact with the grape skins for a long period of time, imparting tannins and an unusual golden orange colour which often includes shades of amber.

The winemaking process used is the same as for red wines, once also used for whites, and which today is being brought back by some producers who want to reintroduce historic traditions. The perception of the flavours is broad and complex, ranging from tannic intensity, with the primary aromas of the grape, to ripe and dried fruits, with herbaceous and fragrant notes.

The red lines represent the alcoholic components

The green lines represent the aromas of the wine

VINEA™

TASTE THE DIFFERENCE

A collection of machine-blown stemware which is elegant, sophisticated, highly transparent and sparkling. The lightweight stemglasses have features typical of mouth-blown although sturdier and precise (faithful to specifications); manufactured in High-Tech Lead Free Crystal Glass SON.hyx®.

VINEA™ collection is characterized by a captivating unique design as it combines classic shapes with more contemporary and functional ones.

This collection is dedicated to the most important native (autochthonous) Italian vine varieties.

The stemglasses have been designed through the use of correlated research and trials and subsequently tested by Centro Studi Assaggiatori using the Advanced Big Sensory Test® and the Analogic-Affective Big Sensory Test® to mark them out.

VINEA™ stemglasses best highlight the sensorial perceptions of each vine varieties emphasizing their organoleptic qualities.

The shapes of all items in the VINEA™ collection differ from all the other stemglasses present on the market as the wine contained releases an “explosion” of all the characteristics flavours of the territory of origin while at the same time lessening the alcoholic elements in the aroma.

By doing so, connoisseurs and novices alike will find the taste and aroma enjoyable:
Taste the Difference.

The shapes and dimensions of the stemglasses are such as to:

- Lessen the perception of the alcoholic elements enhancing only the true aromas of the specific vine varieties.
- Balance the gustatory perceptions and aromatic elements; excellent mouthfeel.
- Make the aromatic perception intense and balanced.
- Allow the wine to have a slow and intense aeration without modifying the typical aromas.

Recent studies and research on VINEA™ stemglasses have once again confirmed that the wine changes its taste and aromas depending on the shape and dimension of the glass used.

Due to the unique design of the bowl, the aromas’ diffusion has a “Ring effect”; the alcoholic elements concentrate outwards while the wine specific aromas will develop in central part of the bowl.

Such phenomena identified in VINEA™ stemglasses enhances both the wine’s aromas and flavours without any interference with gaseous ethanol. Gaseous ethanol condenses partly on the walls of the bowl and partly vanishes towards the rim without affecting the olfactory evaluation.

55 cl - 18 1/2 oz
h 24,2 cm - 9 1/2"
Max Ø 9,3 cm - 3 5/8"
11836/02 • GPR 2/12
11836/01 • BAF 6/24

A stemglass important in its dimensions with sinuous lines that bestows (confers) a fresh and contemporary look during the tasting of full-bodied red wines. It is the optimal choice for a Wine Bar that wants to differentiate itself with an innovative image. Its masterful design brings to light precious background notes such as floral and spicy.

RECOMMENDED WINES:
Cannonau di Sardegna Doc
Tai Rosso Colli Berici Doc
Côtes du Rhône Aoc
Syrah-Grenache

C 468
Montepulciano - Merlot
45 cl - 15 1/4 oz
h 23 cm - 9"
Max Ø 8,7 cm - 3 3/8"
11834/01 • BAF 6/24

An elegant and classic stemglass, lightweight, a passe-partout due to its exceptionally well balanced dimensions and design. It is the perfect stemglass for connoisseurs, tastings in wine bars or important occasions. Its shape enhances the complex bouquet of full-bodied and fruity red wines making them more prestigious and bringing out specific aromas such as floral, fresh vegetable and toasty.

RECOMMENDED WINES:
Montepulciano d'Abruzzo Doc
Rosso Piceno Doc
Merlot

C 466
Malvasia - Orvieto
35 cl - 11 3/4 oz
h 21,5 cm - 8 1/2"
Max Ø 8,1 cm - 3 1/4"
11832/02 • GPR 2/12
11832/01 • BAF 6/24

A lightweight and pleasant to hold stemglass, suitable to wine connoisseurs due to its elegant yet technical design, versatile for restaurant settings and ideal for wine bars thanks to its manageable size. This stemglass is suitable for young and fresh wines such as aromatic whites. The bowl's shape has an outstanding amplifying effect on highly aromatic wines; floral, honey and vegetable aromas clearly stand out.

RECOMMENDED WINES:
Castelli Romani Doc bianco
Orvieto Doc
Gewürztraminer

C 472
Franciacorta - Pinot Nero
27 cl - 9 1/4 oz
h 25,2 cm - 9 7/8"
Max Ø 7 cm - 2 3/4"
11837/01 • BAF 6/24

An important flute with sophisticated contours and technical features; remarkably tall yet lightweight and pleasant to hold. It is perfect for precious sparkling wines as it glorifies any méthode Champenoise where all its precious notes will stand out, particularly the floral. It is the preferred flute by connoisseurs and by sophisticated users on special occasions.

RECOMMENDED WINES:
Franciacorta Docg Brut
Pinot Nero
Trento Doc Brut Spumante
Metodo Classico
Champagne Brut

C 465
Prosecco
20 cl - 6 3/4 oz
h 23 cm - 9"
Max Ø 6,7 cm - 2 5/8"
11831/02 • GPR 2/12
11831/01 • BAF 6/24

A contemporary and elegant flute, with a delicate and classic contour, lightweight and easy to handle, ideal for wine bars. Its tapered and sinuous shape emphasizes the perlage and vibrancy of light sparkling wines, enhancing the fresh and floral aromas. In the Vinea flute the exquisite notes of aromatic herbs of the Prosecco will prevail while sulfur notes, where present, will disappear.

RECOMMENDED WINES:
Prosecco Doc Extra Dry
Prosecco Superiore
Valdobbiadene Docg Extra Dry
Cava

VINEA™

TASTE THE DIFFERENCE

C 478
Moscato - Spumante
30 cl - 10 1/4 oz
h 15,3 cm - 6"
Max Ø 11,5 cm - 4 1/2"
11899/02 • GPR 2/12
11899/01 • BAF 6/24

This coupe marks the surprising return of a great vintage shape revisited in an innovative look; original, elegant, feminine, it is a touch of art to mark the occasion. It gives a special emphasis to the perlage as it contributes to enhance the aromatic complexity of dessert sparkling wines, whether aromatic whites, reds or dry, bringing out the floral, fruity, pastry and spicy notes.

RECOMMENDED WINES:

Asti Spumante Docg
Brachetto d'Acqui Docg
Champagne

VINOTEQUE

ARTE ITALIANA DELLA DEGUSTAZIONE

The Vinoteque range of stemglasses has been designed to fully satisfy the 5 senses: hearing, sight, smell, taste and touch.

Each wine has unique organoleptic properties and, for this reason, each wine must be served in a suitable stemglass in order to enhance its characteristics. The main function of Vinoteque stemglasses is to balance the sensations of each type of wine.

Their shape and dimensions are the result of studies and scientific research, on the organoleptic appreciation of aromas and on the physical conditions and characteristics that enables to enhance their perception.

VINOTEQUE, A WIDE RANGE OF PROFESSIONAL, ELEGANT AND ROBUST STEMGLASSES WITH HIGH SENSORIAL PERCEPTION FOR THE TASTING OF ALL KINDS OF WINES:

- Shapes and sizes designed as a result of scientific studies, to maximize the olfactory and taste perception of wines.
- Tested by **Centro Studi Assaggiatori** using the Advanced Big Sensory Test[®] and the Analogic-Affective Big Sensory Test[®].
- Made in **TITANIUM Reinforced** High-Tech **SON.hyx**[®] Blown Crystal Glass with high resistance to breakages.

STEMGLASSES CHARACTERISTICS

The different shapes of the bowls:

- facilitate the rotation of the wine in the glass
- improve the balance of the different aromas in the head space.
- convey the aromatic molecules towards the nose (with the right concentration and balance).
- guide the wine towards specific areas of the tongue ensuring the appropriate amount of wine at every sip.
- guarantee the perfect contact between the lower lip and the rim of the bowl, avoiding annoying drops on the edge of the mouth.

SENSORY PERFORMANCES:

- Wine colour efficiency \simeq 100%
- Olfactory perception \simeq 100%
- Taste balance \simeq 100%

CARAFES AND DECANTERS

- Rapid oxygenation
- Negligible dispersion of aromas
- **ANTI-DRIP coating**

VINOTEQUE

ARTE ITALIANA DELLA DEGUSTAZIONE

C 374
SUPER 800

80 cl - 27 oz
h 23,5 cm - 9 1/4"
Max Ø 12 cm - 4 3/4"

09650/06 • BAF 6/12

For aged and tannin-rich red wines.

The bowl enables rapid oxygenation, recreating the effect of the decanter. Due to its shape, the aromatic intensity is very deep and persistent. The shape guides the wine directly toward the centre of the tongue: armonious balance amongst acid-tannin-fruit sensations.

RECOMMENDED WINES:

Barbera d'Asti Doc
Chianti Docg
Valcalepio Rosso Doc
Riserva

C 362
RISERVA

76 cl - 25 3/4 oz
h 24,8 cm - 9 3/4"
Max Ø 9,9 cm - 4"

09641/06 • BAF 6/12

For full-bodied and very mature red wines.

The big shape of the bowl allows for the correct oxygenation of red wines, refined in bottles and with light tannins.

RECOMMENDED WINES:

Cabernet Sauvignon (USA)
Valcalepio
Rosso Doc Riserva
Cabernet Sauvignon
Valle del Maipo (Cile)
Bordeaux Montagne
Saint-Emillion
Barolo Riserva

C 342
ROBUSTO

66 cl - 22 1/4 oz
h 22,6 cm - 9"
Max Ø 10,6 cm - 4 1/4"

09077/02 • GP 2/12
09077/06 • BAF 6/12

For very structured and very smooth red wines.

The concave shape of the bowl (similar to an apple) is suitable for wines with high alcoholic content and intense taste. High level of aromas diffusion and bouquet enhancement.

RECOMMENDED WINES:

Amarone della Valpolicella
Côtes-du-Rhône
Nebbiolo Langhe
Barolo
Rosso di Montepulciano

C 363
RICCO

59 cl - 20 oz
h 23,8 cm - 9 1/4"
Max Ø 9,1 cm - 3 1/2"

09627/11 • GP 2/12
09627/06 • BAF 6/24

For full-bodied and mature red wines.

The shape of the bowl has ideal oxygenation surface to enhance the perception of complex aromas in a balanced way. The shape guides the wine to the back of the tongue.

RECOMMENDED WINES:

Brunello di Montalcino
Chianti Docg
Teroldego Rotaliano Doc
Riserva
Barbera d'Asti

C 365
MATURO

49 cl - 16 1/2 oz
h 24,2 cm - 9 1/2"
Max Ø 8,8 cm - 3 1/2"

09643/06 • BAF 6/24

For full-bodied and mature white wines.

The wine-glass contact surface was designed to maintain the servicing temperature. Thanks to its shape, flavours are well defined and expressive.

RECOMMENDED WINES:

Chardonnay
Riesling Venezia Giulia
Sauvignon
Chenin Blanc

C 371
SMART TESTER

40 cl - 13 1/2 oz
h 22 cm - 8 3/4"
Max Ø 8 cm - 3 1/4"

09647/06 • BAF 6/24

Stemglass for universal tasting of red, white and sparkling wines.

The indentation at the bottom of the bowl (epicure) enables:

- release of perlage in sparkling wines
- wine colour examination (colour sensor)
- wine sediment check (decanting sensor)
- effervescence examination for still wines (defect sensor)

IT ENSURES THE MEDIUM PERCEPTION OF ALL WINES.

BIRRATEQUE™

DESIGN GLASS FOR CRAFT BEER STYLES

Discover how the quality of the glass, the shapes and design of Luigi Bormioli's products make the difference. BIRRATEQUE™ collection has been developed in collaboration with Centro Studi Assaggiatori (International specialists of sensory analysis).

Every Beer Style has unique organoleptic characteristics, for this reason each specific Beer Style should be served in the appropriate glass so that all its organoleptic features will be emphasized.

The shapes and dimensions of this new glassware collection are the results of studies, research and tests:

- Glass shape and glass quality influence the colour, aroma and the taste of beer. The glass shape must match the Beer Style that is poured into it.
- The right glass will bring forward the true flavours of the beer.
- The internal volume of the glass must be greater than that of the beer poured into it in order to create an adequate aromatic chamber (Head Space).

Only in this way it will be possible to experience the true aromas of the beer. On the contrary, if the glass is filled up to the rim the aromatic molecules of the beer will drift out and vanish in the surrounding environment and its flavour will be distorted.

GLASS QUALITY

Birrateque collection is produced by using Lead-Free High-Tech Crystal Glass SON.hyx®. The transparency and sparkle of this innovative glass enable the appreciation of the real colour and clarity of the beer and its foam. The synergy between the glass quality and the unadulterated appearance of the beer will create appealing impressions which will result in unique sensations during the tasting process.

The glasses are machine-blown with features typical of mouth-blown although more durable and precise instruments (faithful to specifications)

SHAPES & DIMENSIONS

The shape and dimensions of the glasses have been designed for specific Beer Styles to optimize the typical aromas and the gustatory perceptions.

The unique features of this glassware are:

- a) Distribute the beer more widely across the mouth, not just to the center of the tongue.
- b) Allow the beer to flow slowly into the mouth avoiding any turbulence. In this way both the tongue and the nose will be able to perceive all the gustatory and aromatic elements (mouthfeel).
- c) Avoid the transfer of heat from hand to the beer.
- d) Maintain the foam at an adequate level when drinking. This inhibits the oxidation of the beer and ensures its flavour not to be subdued while the diffusion and release of aromas is guaranteed.

Beer Foam represents:

- The beer "Safeguard" as it guarantees the correct level of bitterness. Every beer has its own level of bitterness which can be measured in International Bitterness Units or IBUs.
- The "aromatic conveyer" of Beer.

All of the above is guaranteed by the Foam Control System (FCS) applied to BIRRATEQUE™ glasses. Laser etching at the base ensures that a small stream of fine bubbles are continually released, replenishing the head and releasing the aroma at the same time.

BIRRATEQUE™

DESIGN GLASS FOR CRAFT BEER STYLES

(1)
Suitable diameter of the rim to reduce the speed in which the beer is delivered into the mouth giving sufficient time to the taste buds to recognize the taste elements appropriately.

(2)
Laser-cut fine rim: 1.2 mm thickness avoids turbulence and guarantees a pleasant mouthfeel.

(3)
Chimney to balance the aromas.

(4)
Head Space (Aromatic Chamber)

(5)
Bowl shape incurved specifically for each Style of Beer to capture the right aromas.

(6)
Foam (Head): "aromatic conveyer" avoids the oxidation of beer without altering the level of bitterness.

(7)
Narrow stem: easy and pleasant to hold and it reduces heat transfer from hand to beer.

(8)
Base: Stable.

(9)
Foam Control System: Laser etched circle helps maintain a fine and persistent stream of bubbles replenishing the head and releasing the aromas at the same time.

BIRRATEQUE™

DESIGN GLASS FOR CRAFT BEER STYLES

(1)
Laser-cut fine rim (gustatory pleasantness: no turbulence)

(2)
Turn-out lip directs beer to all part of tongue at reduced speed.

(3)
Aroma control Curve.

(4)
Round surface to avoid the dispersion of aromas while filling the glass.

(5)
Titanium reinforced stem.

(6)
Flat and stable base.

BIRRATEQUE™

DESIGN GLASS FOR CRAFT BEER STYLES

C495
Premium Snifter

56 cl - 19 oz
h 17,4 cm - 6 7/8"
Ø 9,7 cm - 3 3/4"

I2462/02 • GPR 2/8
I2462/01 • BAF 6/24

A technical glass for special beers, The Premium Snifter transforms the Tulip glass, beloved by experts, into a vital tasting tool. It is a solid, heavy, and practical glass. For special, structured and complex beers, it provides aromatic depth, bringing the most valuable notes to the foreground: floral, citrus, fruity.

IDEAL FOR:

Belgian Style Beers, Bocks, Dark Lagers, Specialty & Hybrid Beers, Wild/Sour Beers

PM1020
Pilsner

54 cl - 18 1/4 oz
h 20,4 cm - 8"
Ø 7,7 cm - 3"

I2461/02 • GPR 2/12
I2461/01 • BAF 6/24

The linear shape, a scientific take on the classic cylindrical glass, combines informality and advanced techniques: the solidity of the stem contrasts with the refined rim, making it the ideal expert tool for everyday use. The Pilsner highlights the compactness of the foam and the distinctive fragrances, especially citrus fruits, that may otherwise be hidden.

IDEAL FOR:

American Pilsners, Baltic Pilsners, German Pilsners, Czech Pilsners, Light Lagers

PM 987
Wheat - Weiss

78 cl - 26 1/2 oz
h 18,8 cm - 7 3/8"
Max Ø 10,2 cm - 4"

I1827/02 • GPR 2/12
I1827/01 • BAF 6/24

The wide and rounded shape of the bowl, the remarkable dimension and its pleasant grip make this tumbler perfect for craft beer tasting in contemporary settings with casual elegance. The bowl shape incurved at the rim delivers the specific Wheat aromas amplified to the nose; from the citrusy and fresh fruit to the scent of grains.

IDEAL FOR:

Dunkel
Weizen Doppelbock
Berliner Weisse
Gose
Lambic
Belgian Witbier

PM 988
Seasonal - Saison

75 cl - 23 1/4 oz
h 18,4 cm - 7 1/4"
Max Ø 10,5 cm - 4 1/8"

I1828/02 • GPR 2/12
I1828/01 • BAF 6/24

The style is futuristic and original, designed to impress. The solid grip gives importance and sense of strength while the dimension and the angular shape of the bowl concentrates and amplifies the aromas. It enhances the floral and the fruity aromas typical of light seasonal craft beers, bringing out the sweetness and emphasizing the effervescence.

IDEAL FOR:

Kriek
Framboise
Bière De Garde
Holiday Spiced Beers

PM 986
Stout - Porter

60 cl - 20 1/4 oz
h 17,8 cm - 7"
Max Ø 9,5 cm - 3 3/4"

I1826/02 • GPR 2/12
I1826/01 • BAF 6/24

Sized but sinuous, elegant and well balanced according to enthusiasts and experts this is the perfect instrument for the tasting of full-bodied craft beers. Its shape makes it particularly discerning as it accentuates the specific flavours of dark beers: toasty malt, coffee, spices, caramel and dried fruit.

IDEAL FOR:

Baltic Porter
Irish Dry Stout
Milk Stout
Oatmeal Stout
Oyster Stout
Bock

MIXOLOGY

BETWEEN HISTORY AND CULTURE,
FROM PROHIBITION TO EXOTIC MIXTURES OF AVANT-GARDE,
EMERGES MIXOLOGY, THE ART OF MIXING WHERE NOTHING
IS LEFT TO CHANCE.

LUIGI BORMIOLI EMBARKED UPON THIS NEW ADVENTURE
WITH A COLLECTION OF LUXURY BARWARE
AND COCKTAIL MAKING EQUIPMENT, CREATED IN COLLABORATION
WITH YURI GELMINI, HEAD BARMAN OF THE SURFER'S DEN IN MILAN
AND FUTURISTIC MIXOLOGIST.

THE STUDY AND THE SEARCH FOR NEW ELEMENTS,
EXPERT HANDS WHICH KNOW HOW TO MIX AND FINE-TUNE
NEW FLAVOURS, EVERYTHING IS LEFT TO THE TASTE
AND THE IMAGINATION OF FUTURIST MIXOLOGIST YURI GELMINI,
AND LEADS TO FORMS OF CREATIVITY AND AESTHETIC EXPRESSION
THANKS TO BOTH TECHNICAL MEANS AND HIS ABILITY DERIVING
FROM STUDY AND EXPERIENCE IN THIS FIELD.

The stemless feature gives a no-frills look to this wine glass while keeping its technical features unchanged. A tasting instrument suitable for sophisticated and aged red wines due to its wide oxygenation surface. Also particularly suitable for water tasting.

THERMIC GLASS

Borosilicate glass is a material highly resistant to thermal shock and dishwasher safe. Its chemical composition maintains unadulterated the level of acidity of any liquid or food contained.

The vacuum area between the two walls allows for thermal insulation and prevent condensation on the outer surface. As a result the temperature of hot liquid or food is maintained for longer than that of other materials such as porcelain or ceramic.

The same is applicable for cold liquids and food, the desired temperature is maintained for longer preventing the “sweating” effect on the table and hands.

- ▶ Double wall borosilicate glass, hand made.
- ▶ Thermal shock resistant.
- ▶ Microwave and dishwasher safe.
- ▶ Maintain the temperature of both drinks and food hot and cold.
- ▶ Maintain unadulterated the level of acidity of liquid/food contained.
- ▶ Prevent condensation on the outer surface.

SINGLE ORIGIN COFFEE CUP COLLECTION	187

THERMIC GLASS
food&design

The new trend 'food design' matches lifestyle and adds a twist to food entertainment, glasses once used purely for drinks have the main role in this new scenario.

The transparency of glass and the various shapes are ideal to serve desserts, creams, appetizers and other recipes directly in individual mini-helpings. The quick and simple preparation of the creative recipes and their visual effect will result in an original and trendy presentation.

The thermal insulation of the double-wall tumblers maintains the desired temperature of food for longer preventing condensation. A collection of items ideal for buffets, cocktails, special parties any occasion in home entertaining.

Turn any occasion into something special. With little effort your favourite recipes served in **THERMIC GLASS** *food&design* will be more exciting and satisfy both your taste and your sight.

POUR OVER COFFEE KIT (MAX 6 CUPS)

NEW

A combination of aesthetics, connoisseurship and craftsmanship. Easy coffee making that appreciates exquisite flavour experiences as it allows maximum control over preparation and flavour intensity. The reusable stainless steel filter allows more oils to penetrate into the coffee creating a fuller bodied flavour.

- ▶ Dripper = Reusable double-mesh stainless steel filter. (No need for Paper filters – No waste).
- ▶ Borosilicate Coffee Pot (a brewer and a serving pot all in one).

MULTIPURPOSE

The visual impact resulting from this design in double-wall and its dimension is outstanding. Furthermore its lightness, visual and at the touch, is remarkable all because of borosilicate glass. Its transparency during the tasting of a blend of chinese tea the true amber tone of the drink is highlighted. Due to its shape, amongst the complex aromatic notes are predominantly enhanced the floral ones such as chamomile and lemon balm. Amongst the aromas fresh fruit such as peach, melon, exotic fruit, red berries, nuts and dried fruit are brought out together with the spicy ones. The crispness of the flavour and the aromatic persistence is also enhanced.

Cappuccino cup with stainless steel saucer
16,5 cl - 5 ¼ oz
h 7,3 cm - 2 ¾"
Max Ø 8,2 cm - 3 ¼"
10086/01 • GP 2/12

CAPPUCCINO

A classic and elegant shape, its lightness, due to the borosilicate double-wall glass, makes it very pleasant at the touch and at the contact with the lips. This shape maintains the taste characteristics of the coffee enhancing the 'pampering' aromas of nuts and dried fruit typical of this drink. Additional aromas are also enhanced: from cereals to toffee, from vanilla to chocolate, from hazelnut to dried fruit.

Espresso cup with stainless steel saucer
6,5 cl - 2 ¼ oz
h 5,4 cm - 2 ¼"
Max Ø 6,1 cm - 2 ½"
10083/01 • GP 2/12

ESPRESSO

The classic design of this double-wall cup distinguish itself for its contemporary look resulting in an aesthetic effect very different from similar cups in porcelain and in traditional glass. This professional tasting instrument maintains perfectly the aspect of the cream as well as the taste and tactile characteristics of the coffee. The shape lowers considerably the vegetable aromatic perceptions, a flaw for coffee, emphasising the fresh and fine floral and fruity aromatic notes. High olfactory intensity and long intense aromatic persistence (I.A.P.)

RM 374
Espresso
10,5 cl - 3 ½ oz
h 8,2 cm - 3 ¼"
Max Ø 6,5 cm - 2 ½"
10353/01 • GP 2/12

ESPRESSINO

The elegant design of this double-wall professional tasting instrument is the differentiating element resulting in a more refined version compared to similar ones in porcelain and traditional glass. Its shape express at its best all of the espresso coffee characteristics and all of the aromatic notes that develop during the coffee roasting process: from cocoa to confectionery and above all the nutty flavours. The olfactory perception of honey is enhanced resulting in a more intense aroma.

RM 373
Caffeino
8,5 cl - 2 ¾ oz
h 7,4 cm - 3"
Max Ø 6,2 cm - 2 ½"
10352/01 • GP 2/12

CAFFEINO

Its shape reminds that of the traditional "bicerin of Turin", refined and contemporary in the design this double-wall version is lighter to the touch than similar versions in porcelain or traditional glass. The level of acidity and bitterness present in coffee is lowered considerably in this cup. Whereas the aromatic notes of nuts and dried fruit together with the toasted aroma are kept steady highlighting the toffee flavour. This shape holds down the level of astringency and acidity present in coffee emphasising its nutty flavours.

PACKAGING

SINGLE ORIGIN COFFEE CUP

This new collection of coffee cups, made of double wall borosilicate glass, heightens the gustatory profile and the intensity of the aroma of the single origin coffee enhancing the most refined and sophisticated aromatic notes more than coffee cups made in porcelain or single wall glass. These unique coffee cups enable a better appreciation of all the diverse sensorial characteristics typical of single origin coffees.

RM 386 COLOMBIA
single origin coffee cup
10 cl - 3 1/2 oz
h 8 cm - 3 1/4"
Max Ø 6,2 cm - 2 1/4"
10664/01 • GP 2/12

The coffee cup **COLOMBIA** softens the acidity typical of this single origin while emphasizing the toast aromas along with those of caramel and vanilla which increase by synaesthesia an overall sensation of sweetness. The aromatic notes of dried fruit are strong but those of almond, hazelnut and walnut are even more pronounced. The outcome is a coffee so well balanced and delicate that adding sugar is not necessary.

RM 385 JAMAICA
single origin coffee cup
9 cl - 3 oz
h 8 cm - 3 1/4"
Max Ø 6,2 cm - 2 1/4"
10663/01 • GP 2/12

The coffee cup **JAMAICA** keeps the delicate balance between the gustatory profile and the prominent aromatic notes typical of the prestigious Jamaica Blue Mountain: nuts (hazelnut, walnut, almond, pistachio), dried fruit (figs, dates, prunes, raisins), toasted notes. The thermic glass maintains the temperature of the coffee for longer thus emphasizing the toast and chocolate notes that tend to become less intense when it cools down.

RM 388 COSTARICA
single origin coffee cup
8,5 cl - 2 3/4 oz
h 8 cm - 3 1/4"
Max Ø 6,8 cm - 2 3/4"
10666/01 • GP 2/12

The coffee cup **COSTA RICA** emphasises the perfect gustatory balance between the sharpness and bitterness typical of this single origin as well as notes of toasted cereals, spices and fresh vegetables. This perfect balance is achieved thanks to the thermal effect of the double wall. The olfactory impact is heightened and brings out the intensity in notes of fresh and dried fruit. Its specific shape, flared at the top, enhances also the aromatic notes of vanilla, cocoa and pastries.

RM 384 INDIA
single origin coffee cup
8,5 cl - 2 3/4 oz
h 6,7 cm - 2 3/4"
Max Ø 6,4 cm - 2 1/2"
10662/01 • GP 2/12

The specific internal shape of the **INDIA** coffee cup, wide and shallow, has been designed to soften the sensation of plant fibre typical of this single origin, but does so without reducing the coffee cream formation thanks to the round indentation. The resulting aromatic profile enhances the intended notes such as nuts, bread crust, caramel, vanilla and liquorice.

RM 383 ETIOPIA
single origin coffee cup
8,5 cl - 2 3/4 oz
h 8 cm - 3 1/4"
Max Ø 6,2 cm - 2 1/4"
10661/01 • GP 2/12

The coffee cup **ETIOPIA** enhances the well defined citrus aromas as well as that of dried fruit and chocolate, typical of the single origin Ethiopia Sidamo. The olfactory perception is heightened and the coffee cup Ethiopia emphasises the intensity of floral aromas with sensations of honey, beeswax, orange peel and lemon. The strong citrus notes emphasise its characteristic sharpness by synaesthesia. Other positive notes stand out: almond, hazelnut, walnut, vanilla, toasted notes and liquorice.

RM 387 BRASILE
single origin coffee cup
7,5 cl - 2 1/4 oz
h 7,1 cm - 2 3/4"
Max Ø 7,1 cm - 2 3/4"
10665/01 • GP 2/12

The coffee cup **BRASILE** brings out the prevailing notes typical of the single origin Brazil Santos Supreme: toasted cereals and chocolate. The thermic glass maintains the temperature of the coffee for longer and ensures a strong aromatic sensation with notes of honey, fruit, bread crust, vanilla, cocoa and toast. The specific shape of the cup brings out the most sophisticated notes typical of this single origin: floral and fruity aromas but mostly vanilla.

WINE DECANTERS

DECANTERS AND CARAFES FOR THE SERVICE OF WINES

Various shapes all ensuring both the perfect oxygenation of young red and white wines and the separation from sediments formed during the aging of mature wines. Each carafe and decanter is designed with special attention given to shape and size since every wine expresses itself in relation to the oxygenation surface and volume below. Designed to hold 0,75 L or 1,5 L of wine with the right amount of oxygenation area.

The length of the neck and neck diameter have been designed to keep wine evaporation to a minimum and prevent dispersion of important aromas during wine tasting in stemglasses.

Some Carafes and Decanters have a new revolutionary treatment to prevent dripping **ANTI-DRIP coating**, others have a bevelled finish that ensures a constant flow of wine when pouring it.

SPIRITS BOTTLES & SPIRITS DECANTERS

ACCESSORIES FOR THE TABLE,
FOR THE SERVICE OF SPIRITS.

Luigi Bormioli reinvents the pleasure of an aperitive or after dinner drink through a new offer in glass packaging: original designs in pure Italian style.

This new collection of Spirits Decanters, developed by using the highest technology in glass manufacturing, offers:

- Totally transparent glass enabling the appreciation of the real colour of the spirit contained.
- Dimensions studied to meet also the requirements of this professional sector.
- Design increases the value of the product contained.
- Very high quality standards.
- Advanced technology with eco-friendly production processes.
