HOW TO USE THE CATALOGUE

Product Catalogue

Waste Management

A large range of items to cover the waste management needs from the simplest waste bin to the most elaborate recycling system.

Cleaning

A full range of cleaning systems and small accessories offer you versatile equipment solutions to manage cleaning operations in all type of facilities.

Safety

An extended range of Floor Signs, Cones and Barricades to emphasize site safety, avoid slips and falls and secure areas in hazardous environments.

Skin care

Experience a new level of hygiene. Superior luxury liquid, foam and spray soaps are environmentally responsible with ingenious dispensers that ensure best cost-in-use.

Washroom solutions

Improve any washroom's image with Innovative dispensing platforms that deliver highly effective and cost-efficient odour control and cleanliness. World leading fragrances enhance the washroom experience.

Food Service

Rubbermaid Commercial Products' proven experience in Food Service equipment enables us to offer products to manage your Food Service business in accordance with HACCP guidelines.

Material Handling

Light and heavy duty transport Trolleys, Carts and Trucks will help you move material around faster and easily, saving time and avoiding painful back strain.

CERTIFICATIONS

ISO 9000

ISO 9000 is an internationally recognised quality management system that provides:

- Guidance for businesses that want to implement or improve quality systems within their business;
- Benchmarks that customers can use to evaluate a supplier's quality system.

ISO Certification of the Commercial Products Facilities perfectly embodies Rubbermaid® principles:

- ISO certification represents a commitment to continuous value improvement.

Rather than look at particular products, ISO reviews the systems and procedures through which businesses assure quality products.

- ISO certification shows that a company has built a culture of quality.
- ISO certification demonstrates a commitment to world class quality systems and the global marketplace.

Technical Concepts Int Ltd. is a BSI ISO 9001:2008 registered company.

ISO 14001

ISO 14001 is an internationally recognised Environmental management system that assists companies:

- in reducing their negative impact on the environment.
- in continually improving their environmental performance, whilst complying with any applicable legislation.
- in meeting their environmental and economic goals.

Technical Concepts Int Ltd. is a BSI ISO14001:2004 registered company.

Rubbermaid Commercial Products operates a quality management system which complies with the requirements of:

- ISO 9001/Winchester, Va., USA
- ISO 9002/Zaragoza, Spain.
- ISO 9001/Cleveland, Tn., USA
- ISO 9001/Wiler, Switzerland.

CE

The CE marking (an acronym for the French "Conformite Europeenne") certifies that a product has met EU health, safety, and environmental requirements, which ensure consumer safety. Manufacturers in the European Union (EU) and abroad must meet CE marking requirements where applicable in order to market their products in Europe.

CSFM

California State Fire Marshal. The state of California is regarded as having the most stringent fire codes of all the United States. Having the responsibility of preventing fire, the Californian Fire Service requires that all containers which are used in public areas to collect combustible materials (cigarettes) must pass an anti-fire test.

BPA-FREE

This logo indicates that the product is made with Tritan copolyester which does not contain Bisphenol A (BPA).

FDA

Food and Drug Administration does not approve products. The FDA sets regulations which require compliance.

FM

Factory Mutual is an independent testing agency whose approvals are based on Standard 6921 Combustible Waste Containers. Standard 6921 contains performance criteria for containers with covers (lids) and their ability to withstand internal fires, maintain a certain range of stability, if dumped, and stay intact over a wide temperature range. Standard 6920 contains performance criteria for Oily Waste Containers.

FOOD CONTACT

This logo guarantees compliance with the European Community regulation EC ni1935/2004 and EU Regulation 10/2011 that define standards for items that will be in contact with food. These standards relate to the production, materials and structure of the item, according to its use. Rubbermaid works closely with officially recognised European laboratories to comply with the highest standards in terms of "Food Contact".

GREEN SEAL™

This product meets the Green Seal™ environmental standard for institutional hand cleaners based on its reduced human and aquatic toxicity and reduced smog production potential.

Better for the environment...

- Minimum impact on the aquatic ecosystem
- Complies with the strict requirements of biological degradation
- Limited packaging waste
- ... better for you.

UV stabiliser added for maximum life in outdoor settings.

Assembly required.

Products manufactured by Graco-Children's Products

Indicates products that contribute to Green Cleaning and Sustainability.

Hands-free products that help reduce the risk of cross-contamination.

Products and components are subject to change without notice, and may differ from catalogue imagery. Refer to "pack" size for exact carton contents.

HACCP

HACCP defines critical control points and related processes to ensure basic hygiene requirements are met in professional kitchens. The intuitive use of products marked with this symbol guarantees that they comply with the HACCP-guidelines. Since the 1st of January 2006 the European Community Directives EC No 852/2004 and EC No 853/2004 have been prescribing the implementation of HACCP mandatory guidelines in the European Union territory.

ISTA

International Safe Transit Association. The Compacted Mops were tested and certified via ISTA Test Procedures.

LNE

The Laboratoire National d'Essais is an independent testing laboratory based in France. It lists products which meet their criteria for safety.

NSF

National Sanitation Foundation is an independent testing lab/organisation in Ann Arbor, Michigan. NSF lists products which meet their criteria for cleanability and sanitation: food contact, splash zone and non-food contact, as per Standard 2: Food Equipment and Standard 18: Manual Beverage Dispensers. Also, Standard 21: Thermoplastic Refuse Containers. To find Rubbermaid NSF certified products, please go to: www.nsf.org/certified

RUSSIAN

Since 1993 the Russian government has implemented the Russian Standard certification for most products entering the Russian territory. The aim is to guarantee people's health and security.

TÜV

The TÜV certification officially certifies the compliance of the Rubbermaid Commercial Products with the European requirements.

UL

Underwriters Laboratory. The UL classified baskets meet the criteria for UL Standard 242 which is a standard of performance for open top, non-metallic wastepaper containers. UL classified baskets are generally found in patient care rooms (hospitals/nursing homes).

USDA

United States Department of Agriculture Equipment Listing (Meat and Poultry and 3A Dairy Listing). Items that comply with USDA regulations via the design, construction and materials of a product.

Rubbermaid washroom guarantee

The Guarantee is against faulty workmanship and failure in operation when the products are used as directed. Guarantee is void should any claims be made on products that have been abused or vandalised, or if products have been used with non approved refills.

RUBBERMAID MATTERS

Successful professionals have learned to trust Rubbermaid Commercial Products to deliver money-saving innovations, with best-in-class performance and quality. When you choose products carrying the Rubbermaid Commercial Products brand, you are choosing the best value for your money, and communicating that your business maintains the highest standards.

Rely on Rubbermaid:
INNOVATION
QUALITY
TRUST

Experience that matters...

From the rich and luxurious to the economical, Rubbermaid's complete line of skin care systems suits every need. Rubbermaid's innovative dispensers range from automatic through-the-counter systems and to manual wall-mounted styles. Superior hand washing and sanitising experience, lower cost-in-use, and environmentally responsible products mean Rubbermaid is your source for innovative hygiene solutions.

A NEW CLEAN LOOK FAMILY FOR A COORDINATED LOOK IN YOUR WASHROOM

Rubbermaid Commercial Products is committed to helping facilities deliver a positive experience for washroom patrons and clean, coordinated dispensing systems is a key contributor to that experience.

Rubbermaid currently offers a premium range of matching dispensers for air, surface, and skin care. The look and the colour offering of the new Clean Look dispensers can be matched with either the premium systems or the newly launched Flex and ProRX skin care dispensers.

The industry leading programmability and overall operation of the dispensers will not change, but all Clean Look style dispensers will be available in white, black and chrome.

SMARTER CLEANING

The new Rubbermaid HYGEN™ Clean Water System features a Filter Bucket and Wringer with built-in scrubbers to help loosen and remove debris from the mop. Twin rollers allow for optimised wringing efficiency, and an innovative filtering system processes dirty water into cleaner water with a simple tilt of the bucket.

Sustainability Matters

HOW CAN RUBBERMAID COMMERCIAL PRODUCTS SUPPORT YOUR SUSTAINABILITY GOALS?

By using Rubbermaid Commercial Products, you will realise our commitment to supporting your green initiatives through:

- Waste reduction through product durability and recyclability
- Recycling
- Green cleaning
- Packaging reduction

OUR PRODUCTS

We incorporate sustainability principles in the way we design and produce our products—from our ground-breaking utilisation of recycled materials in plastic, metal, and textile products, and our long-standing refusal to purchase colorants containing heavy metals, to our industry-best quality and durability.

OUR BUSINESS

Rubbermaid is committed to conducting our business in an ecologically responsible manner. This includes an active Energy Management System, whereby we measure our energy consumption, target reductions, and report our results, having recycling programmes in all of our facilities, and taking an industry leadership role in the use of recycled resins and metals—a vital link in the recycling chain.

YOUR BUSINESS

Whether you distribute or utilise Rubbermaid Commercial Products, you will experience our commitment to supporting your green initiatives, recycling, green cleaning, water efficiency, waste reduction through product durability & recyclability and packaging reduction.

Element recycling containers with recycled content are greener (page 15)

Rubbermaid HYGEN™ Clean Water System is greener (page 54)

TCell™ Revolutionary air care system that creates an environment that is fresh all day, without added VOC's (page 106)

Better for the environment...

Waste Management

Why does recycling matter?

Waste is a big problem.

Too much waste is still being sent to landfill sites or being incinerated, when the best solution to reduce our environmental impact is to recycle and compost as much of our waste as possible.

The EU has set strict objectives :

By 2015:

- Landfill will be banned for at least paper, glass, textiles, plastic and metal.
- Separate waste collection systems for these categories must be set up.

Rubbermaid has the ideal solutions to help you set up a Recycling Programme.

Practical guide to set up your recycling programme:

1. Analyse Needs

- What waste streams do you want to recycle?

Possible examples:

- paper
- cardboard
- general waste
- plastic bottles
- cans
- milk and juice (Tetra Pak) cartons

- Identification of contractors who pick up recycling waste.

2. Set Objectives

- Measure the volume of each individual waste type.
- Negotiate with your contractors who pick up recycling waste.
- Define if recycling will be a profit centre.
- Track volume trends.
- Track material trends.
- Measure these results against main objectives.

3. Choose Products and Implement Recycling

- Choose appropriate recycling products.
- Identify key areas for recycling points and put up adequate signage.
- Contract with recycling contractors and define frequency.

4. Training

Success of recycling on site is based on:

- Clearly communicating about your recycling programme.
- Putting intuitive stickers and posters up at recycling points.
- Creating awareness across the site, with awareness posters for encouragement.
- Training cleaners to ensure they are fully engaged in the recycling programme.

Solutions to achieve recycling.

Waste Collection

Smarter Recycling.

Rubbermaid offers a wide range of products to help you actively manage and recycle your waste. This includes everything from desk-side containers for paper recycling to complete indoor and outdoor recycling stations and mobile collection equipment for handling larger loads with ease.

Rubbermaid offers Sustainable Products.

Not only do our recycling solutions help you increase recycling rates and reduce waste to landfill, they are designed and manufactured as sustainable products themselves, helping to further reduce overall environmental impact.

Quality and Durability:

Longer lifespan products improve sustainability. Rubbermaid's products are designed and tested to be of the highest quality and durability. Lower replacement costs.

Recyclable:

Rubbermaid's sustainable plastic, aluminium and steel products are engineered with the environment in mind. When a product does finally reach the end of its useful life, it is recyclable.

Recycled Content:

Many of Rubbermaid's sustainable plastic, aluminium and steel products have a significant recycled content. This lessens environmental impact by reducing the demand for raw materials.

Manufacturing, Sourcing and Packaging.

Rubbermaid Commercial Products have made a real and significant commitment to clean, sustainable manufacturing. We search the world over to find the best resources that will meet our stringent quality and environmental standards and continually strive to make our packaging more sustainable, using less material and a higher recycled and recyclable content.

Products made with PCR close the recycling loop by incorporating recycled material into new products!

Environmentally Responsible Products.

- Post-Consumer Resin (PCR) content.
Rubbermaid offers a full line of recycling products that contain post-consumer recycled resin. Metal products contain post-consumer recycled content too.
- Environmental Stewardship-environmentally conscious recycling products enhance facilities' sustainability.

Did you know?

- Zero factory emissions on all Rubbermaid products made in U.S.A.
- 100% of our Nonconforming products after production checks are reground and reused.

8 WASTE MANAGEMENT: Recycling

Slim Jim® Venting Channels

New Slim Jim® with Venting Channels makes waste collection more efficient: save time, reduce work strain, and lower labour costs.

See it in ACTION

www.rubbermaidslimjim.com

CAN LINER CINCHES

- Four pull-through holes and can liner cinches eliminate knot tying. Moulded-in handles make lifting and emptying easier.

VENTING CHANNELS

- Patent-pending Venting Channels reduce the pull force required to lift out full can liners.

OVER **60%*** EASIER TO PULL!

BASE GRIPS

- Moulded base grips offer better control during emptying. Moulded-in drag rim on the bottom of the container provides added durability.

EASY TO CLEAN

- Minimal texture and large radii for easy cleaning.
- Reservoir with funnel top to avoid splashing.
- Cup stacking system can be split for internal cleaning.

EASY TO USE

- Pictograms which communicate what goes where.
- Slanted towards user.

EASY TO EMPTY

- Lift the lid to empty.
- Cups remain in the polyliner bag.

RESERVOIR

- Handling point on bottom for good grip.
- Bail to transport the reservoir easily.

MULTIPLE STREAM SORTING

- Use any combination of the restricted opening tops to sort up to four separate waste streams. Tops snap securely into lid.
- Comingle lid for mixed recyclables.

FLEXIBLE LABELING

- Includes separate colour-coded symbol and word labels for customising the Recycling Station based on facility needs.

PERMANENT HOT-STAMPED LOGO

EASY TO EMPTY

- Centre hinge allows the lid to be opened from either side for easy access to waste. Eliminates the need to remove the lid during emptying and helps reduce worker strain and trip-and-fall hazards.

Glutton® Recycling Stations

Support your facility's recycling programme, help reduce labour costs, and improve worker well-being.

- High-capacity, all-in-one centralised solutions for efficient waste sorting.
- Includes designated, item-specific tops, symbol label pack, and word label pack in English, Spanish and French that provides visual cue and encourage compliance. For other languages see page 17.
- Features traditional Rubbermaid Commercial Products strength and durability in easy-to-clean, impact-resistant post-consumer plastic.

Fire Resistant Wastebaskets

Simple safe wastebaskets for general waste disposal.

- Rounded corners add strength and durability for long product life.
- Long-lasting, fibreglass. Will not rust, chip or peel and resists dents.
- Scratch-resistant texture cleans easily, maintaining long-term appearance.
- Conforms to important fire resistance standards.
- Tested and classified by Underwriters Laboratories as able to contain burning paper without the wastebasket melting or contributing fuel to the container's contents.
- Saddle Bin FG295073 fits R050713 / R050714 / R050715 for waste separation. (FG295073 has no fire resistance certification).

Howard Classics

Perforated Steel Design with a clean, modern appearance.

- Ideal for public spaces like shopping centres, train stations or airports.
- Recycling lids: cans, general waste.
- Rigid plastic liner offers easy maintenance.
- Fire-safe, heavy gauge, hot dipped galvanised powder-coated or stainless steel.
- Drain holes to help prevent water accumulation.
- Holes to bolt to ground to help the container remain stable and add security.

FGS3ETBKPL

FGS3EGBKPL

FGS3SSTBKPL

RETAINER BANDS

- Maintain polyliner bags securely inside the container.

LEG LEVELERS

- Are adjustable to raise receptacle and provide stability on uneven surfaces.

CABLE

- Secures the lid and prevents theft.

PERFORATED STEEL

- Allows ventilation and reduces weight for easy maintenance.

HANDS-FREE

- Avoids touching waste and cross-contamination.

MULTIPLE STREAM SORTATION

- 1, 2, 3 and 4 waste stream configurations to meet the various segmentation needs: general waste, bottles, cans, paper. Offers visual queues to prevent waste mixing.

ERGONOMIC ACCESS

- With front door for easy waste removal.

BAG HOLDERS

- To avoid polyliner lifting.

DECALS

- High aesthetic designer decals provide an etched metal appearance and add a visual cue for increased recycling compliance. Standard decals are in English. Custom decals available upon request.

Element Recycling Station

The highly aesthetic multi-stream station to build a successful recycling programme.

- Uni-Koat® powder-coated, very resistant and durable.
- High style and smooth surface for easy cleaning.
- Provides Flexibility with different options and restrictive openings:
 - 1 stream for general waste.
 - 2 stream (3 options): paper/general waste or general waste/bottles-cans or paper/bottles-cans.
 - 3 stream for paper/bottles-cans and general waste.
 - 4 stream for paper, bottles, cans and general waste.

How much can you do to ensure the safety of your employees?

Implement a more hygienic waste disposal regime

Thorough procedures are necessary to make sure waste is correctly disposed of. It is not just a case of keeping waste out of contact with clean surfaces – the airborne dispersion of bacteria and spores means that waste materials must be well-contained at all times.

Rubbermaid's Step-On range of easy-to-clean hands-free bins help you dispose of waste safely and hygienically:

- Hands-free disposal: heavy-duty pedal for hygienic, hands-free use to significantly reduce cross-contamination through hand contact
- Each bin is equipped with a lid: essential for containing airborne pathogens and odours
- Soft-closing lid damper system: prevents the violent rush of air associated with a poorly designed bin that can disperse airborne contaminants into the surrounding environment
- Rounded corners and smooth contours for easy cleaning
- Hygienic non-porous resin and stainless steel construction for many years of reliable service

Did you know?

Improper disposal of waste can lead to food poisoning in food preparation areas.

Reduce physical stress and cut lost working hours

Repetitive or strenuous physical labour can result in musculoskeletal disorders (MSDs).

Primarily, MSDs can cause severe discomfort for staff, but there are also major costs to consider for employers:

- Medical, rehabilitative and administrative costs
- Loss of productivity
- Absenteeism

It is the employer's responsibility to provide their staff with the appropriate ergonomic equipment to help prevent the occurrence of MSDs. All Rubbermaid products are ergonomically-designed to help reduce physical fatigue and strain.

Rubbermaid's Step-On Best is the ideal solution and provides a number of ways to avoid MSDs:

- Easy emptying
- Front-opening to avoid lifting of potentially heavy waste bags
- Easy-grips for improved control and transport

Did you know?

90% of the working population is affected by musculoskeletal disorders (MSDs) at some point in their working lives. EU directives 90/269/EEC, 89/391/EEC and 89/654/EEC legally oblige the employer to provide staff with safe working environments and appropriate ergonomic equipment.

See it in ACTION
www.steponbin.com

FRONT OPENING

- Easy to empty and easy to clean.
- Front opening gives easier access for easier cleaning.
- No heavy lifting—the front opening greatly reduces back strain.

BAG HOLDER

- Secures the polyliner.

LARGE PEDAL

- Large foot pedal permits hands-free opening to reduce spread of bacteria. Compliant with HACCP guidelines.

QUIET OPERATION

- Rubber wheels permit quiet transport without making marks on the floor.
- Damping mechanism gently closes without slamming.

Step-On Best

A 100 l front opening Step-On Bin, meeting users' needs: cleanability, hygiene, safety, ergonomics and durability.

Step-On Waste Containers

Greater capacity Step-On Containers make waste collection more efficient and help reduce labour costs.

- Hands-free, slow-closing lid.
- Durable stainless steel and plastic construction.
- Extra-large foot pedal for ease of use.

Easy-to-clean construction.

- Available in impact-resistant all plastic and new plastic/stainless steel hybrid construction for easy cleaning and long product life.

Extra-large foot pedal.

- Large foot pedal is easy to locate and operate. Step-On function enables hands-free, hygienic disposal.

FG614687

Key features for Step-On Waste Container and Premium Linen Hamper

CAN LINER RETAINING STRAPS
Metal retaining straps keep can liners securely in place and out of sight during use.

QUIET, SLOW-CLOSING LID
Integrated lid damper reduces excessive noise and helps keep odours and bacteria from escaping.

EXTRA-LARGE FOOT PEDAL
Large foot pedal provides hands-free, hygienic disposal.

Premium Linen Hamper

Collect linen more efficiently and improve worker well-being.

- Quiet, slow-closing lid.
- Highly aesthetic design.
- Metal retaining straps keep can liners securely in place.

Durable construction.

- Impact-resistant plastic and aluminium construction for long product life and easy manoeuvrability.

Quiet casters.

- Quiet casters (two lockable in front and two full swivel in rear) provide quiet manoeuvrability for noise-sensitive environments.

Optional Linen hamper bag.

- Washable, PVC-lined, leak-resistant bag features zippered front access for easy emptying (bag sold separately).

The Defenders

Fire-Safe powder-coated Steel Defenders.

- Self closing piano hinged lid.
- Restraint mechanism protects walls and equipment.
- Leak-proof rigid plastic liner.
- Wheels and handle available on the 150 l Defender.
- Fire-safe and self-extinguishing.
- Ideal for healthcare environments.

- Silent closing available on all sizes (use FGQDAMPERKIT).

- Folding retainer bands hold polyliner bag in place.

- Pedal avoids cross-contamination.

How important is durability to your business?

Products that break or lose performance after only a few weeks or month are serious barriers to productivity, and continual replacement of these items makes it difficult to keep costs down.

The robust Rubbermaid solution

With more than 50 years of designing and manufacturing plastic products, Rubbermaid knows how to do durability.

Our products:

- Are incredibly robust – see 'Did You Know' section below
- Are resistant to bending or indentation
- Are unaffected by rust: being plastic, our products do not rust.
All metallic components are made from stainless steel
- Suitable for extreme temperatures
- Suited to indoor and outdoor use

Did you know?

Our rigorous testing processes are designed to create products that improve productivity, increase efficiency and promote safer working practices. To prove how tough our products are, we conducted abrasion testing* of the BRUTE® 167-litre container (item number 2643).

Each BRUTE® container was loaded to 20% capacity with water, a weight of approximately 35 kg. The containers were then held by one handle, tilted and dragged across an interior floor – replicating the way most containers are used. The BRUTE® containers lasted an average of 4.5km until leakage occurred.

Greener plastics

Rubbermaid Commercial Products carefully respects the environment at every stage of the manufacturing process - a substantial proportion of the Rubbermaid's range can already be recycled.

Rubbermaid looks to offer the very best in durability, ergonomics and safety. Overall, the best return on investment available:

- Longer lasting. Made using the best materials to improve longevity
- Low replacement rate. Our equipment keeps going and going and going
- Make cash savings for your company

* Internal testing

How can you improve the look of your indoor and outdoor waste disposal units?

Bins don't need to be boring. Say goodbye to rubbish designs with Rubbermaid's range of decorative waste solutions that allow you select the ideal bin for every situation. With Rubbermaid, no longer do you have to put up with cheap-looking bins that fail to last. With exceptional durability and appropriate styles, Rubbermaid Decorative Waste Solutions are built for long-lasting performance, indoors and outdoors.

High-quality materials

Stainless Steel Decorative Waste Solutions:

- Do not stain, corrode or rust
- Greater resistance to oxidation and corrosion
- Protective layer immediately reforms when the surface is scratched

Powder Coated and Galvanised Steel Waste Solutions: Rubbermaid's unique powder coating is a fine plastic powder that cures to form a uniform protective layer.

- Rubbermaid's powder coating is much tougher than conventional paint finishes
- Powder coating acts like a second skin, helping to protect the product from the elements
- All galvanised products are coated with zinc to help prevent corrosion

Did You Know?

Rubbermaid Commercial Products is committed to manufacturing and delivering products in an ecologically responsible manner.

- All of Rubbermaid's plastic and metal containers are 100% recyclable
- Powder coating spray is 100% recyclable
- Stainless steel is 100% recyclable
- Many of Rubbermaid's sustainable plastic, aluminium and steel products are made of significant amounts of recycled material.

A beautiful difference

Just some of the many options available in Rubbermaid's Decorative Waste Range:

- Enhance your building's indoor environments by choosing the very best bins
- Maintain style and durability in even the harshest of outdoor conditions

SMOKING OUTDOORS

Public health regulations continue to move smokers outdoors, making it ever more important to keep cigarette butts off the ground and out of waste bins. Rubbermaid's Smoking Management range of outdoor receptacles provide smokers with a convenient and tidy way to snuff-out cigarettes and dispose of them safely.

From our standard Ash/Trash Steel Containers to the innovative Smokers' Pole, Rubbermaid is dedicated to developing simple, easy to empty bins that keep pace with the current move towards outdoor smoking.

Designer Line™

Ideally suited to upscale environments.

- Clean lines with elegant chrome or brass accents.
- Heavy gauge powder-coated, fire-safe steel.
- The exceptional durability provides a low maintenance solution for prominent areas.
- Half round shape ideal where space is limited.

STAINLESS STEEL BOTTOM RIM

- Designed to protect the floor from corrosion when the floor is cleaned with water and chemicals.

PROTECTIVE VINYL RIM

- On all side disposal opening prevents injuries.

Infinity™ Smoking Management Solutions

Sophisticated styling and all-metal construction for attractive and efficient smoking litter management.

- High-capacity receptacles for heavy traffic areas.
- Stainless steel snuff plates.
- Weighted bases and bolt-down options for added stability outdoors.
- 360° disposal area.
- Domed tops for weather resistance.
- Integrated padlock tabs provide security against tampering and theft.

See it in ACTION

www.rubbermaidinfinity.com

RECESSED EXTINGUISHING SCREEN

- to snuff butts and avoid smoldering.

CURVED CAP

- no items or waste can be placed on the top and prevents water from entering the canister.

INTEGRATED PADLOCK TABS

- provide security against tampering and theft.

HOLES TO BOLT TO GROUND

- help the container to remain stable and add security.

Metropolitan Smokers' Station

Introducing Rubbermaid's solution to smoking litter management: Metropolitan is a stylish all-metal, high-capacity smokers' station.

EASY-TO-EMPTY

Hinged lid flips open to provide complete access to the 6 liters galvanized liner. Simply lift out liner, discard waste, and re-insert.

USER-FRIENDLY

Stainless steel snuff plates on both sides of unit.

SECURITY FEATURES

Integrated keyed cam lock secures lid against tampering and helps reduce replacement costs.

WEATHERPROOF FINISH

Long-lasting Uni-Koat® powder-coated finish.

AESTHETIC & DURABLE

All-metal construction in a slim, contemporary design

WEIGHTED BASE AND BOLT-DOWN CAPABILITY

Base features holes for standard 3.95 cm lag or concrete bolts (not included) and is weighted for stability.

Ref	Description	Butt capacity	Material	Dimensions	Colour	Pack

How can Rubbermaid help you achieve even better standards in cleaning?

Cleaning for health is a vital task carrying great responsibility. The standard of cleaning will be scrutinised by healthcare managers and the need to perform to the highest level is ever-present. As a result, you need the best cleaning products available, products you can rely on to get the job done without any hassle.

Did you know?

Time is money. Rubbermaid's range of advanced cleaning tools allows you to clean faster than ever before. Our internal testing has shown Rubbermaid's Pulse Mop to be 50% faster than traditional mop and bucket. The Pulse allows the user to direct a jet of water (or chemical) on to the target area, maximising efficiency and reducing the need to regularly move the mop to a bucket.

Rubbermaid will help you...

- Enable daytime cleaning services to reduce costs and improve cleaners' wellbeing.
- Provide healthy environments with the use of superior microfibre textiles.
- Offer ergonomic products to help your employees avoid injuries, strains and illnesses.
- Easier spot cleaning to help you keep your location in peak condition.

Rubbermaid's complete cleaning systems help you equip your team for every cleaning situation, from general to high-risk areas:

- Damp mopping: choose between traditional and microfibre mops.
- Dusting: a complete range of microfibre mops and high level solutions.
- Surface cleaning: the different textiles will clean glass and chrome better and easier.
- Mop buckets: single and double buckets with highly efficient wringing systems.
- Disinfecting bucket for healthier environments.
- Large range of cleaning carts to improve productivity.

In addition to specialist cleaning equipment, Rubbermaid supplies a full range of cleaning solutions for hospitality environments, such as Housekeeping carts suited to every situation.

CLEANING FOR HEALTH

A complete system designed especially for high risk health environments.

SUPERIOR CLEANING FOR: Superior INFECTION CONTROL

Dealing with germs has become a global problem.

Nosocomial Infections or Hospital Acquired Infections have become a major issue for the healthcare sector in many countries.

IN EUROPE 6 TO 10% OF PATIENTS CONTRACT NOSOCOMIAL INFECTIONS.

- Escherichia Coli
- Pseudomonas Aeruginosa
- Staphylococcus Aureus
- Clostridium Difficile

SUPERIOR PRODUCTIVITY

European employers must ensure the health, safety and wellbeing of their employees; this applies both to cleaning people working in-house and cleaning contractors. They need to equip their teams with productive and efficient tools that support RSI (Repetitive Stress Injuries) and MSDs (Musculoskeletal Disorders) reduction for common benefits.

THE RUBBERMAID HYGEN™
MICROFIBRE SYSTEM IS

LIGHTER THAN TRADITIONAL
CLEANING EQUIPMENT

Proven Performance

TO ENSURE HEALTHY, SAFE ENVIRONMENTS

- Superior microfibre textiles proven to remove micro organisms¹.
- Helps reduce cross-contamination².
- Withstands up to 1000 commercial launderings.

Complete System

TO MAXIMISE productivity and value

- Reduces chemical consumption up to 95% vs. traditional mopping.
- Reduces water consumption up to 90% vs. traditional mopping.
- Cleans floors more than 3 times faster than traditional string mop FGS3.
- Proven to reduce worker strain.
- Features legendary Rubbermaid durability.

Training & Support

TO DELIVER OPTIMAL RESULTS

- Dedicated Rubbermaid HYGEN™ training team.
- Detailed guidelines for approved cleaning procedures.
- Comprehensive on-site implementation and training.

PROVEN TO REMOVE OVER

Clean Water System

Introducing a revolutionary floor cleaning system with an integrated water filter for generating:

- CLEANER WATER
- CLEANER MOPS
- CLEANER FLOORS

Cleans up to
1000m²
with one bucket fill*

Cleans the Water
SO YOU CAN CLEAN YOUR FLOORS.

* Test conducted by British Institute of Cleaning Science

SMARTER CLEANING

The new Rubbermaid HYGEN™ Clean Water System features a Filter Bucket and Wringer with built-in scrubbers to help loosen and remove debris from the mop. Twin rollers allow for optimised wringing efficiency, and an innovative filtering system processes dirty water into cleaner water with a simple tilt of the bucket.

ROLLER WRINGER ■
Twin roller design provides optimised wringer efficiency.

See it in ACTION
www.rubbermaidcleanwater.eu

ADJUSTABLE MOISTURE LEVEL ■
Allows users to select desired mop dampness.

FLOOR DRAIN ■
Empties bucket without lifting.

A Complete System.

COMPLETE SYSTEM ■
Fits all Rubbermaid Commercial Products cleaning carts.

The matched system of Filter Bucket, Double-Sided Folding Frame, Microfibre Flat Mops and Handle are compatible with all Rubbermaid janitor carts.

RINSING AND SCRUBBING

Insert the mop into the bucket. Move the mop up and down to enable the built-in scrubbers to remove soil from the mop.

WRINGING

Adjust the dial to select your desired level of moisture. Lift the mop so the yellow dot is aligned with the top of the roller. Standing in front of the bucket, press the handle down to wring the mop.

TRANSFERRING

When the mop water gets dirty, rather than having to dump the water and refill the bucket, tilt the bucket 90 degrees by pressing the handle. This allows the dirty water to transfer to the filter chamber.

FILTERING

Once the water is completely transferred to the filter chamber, rotate the bucket back to its original position. In just a few minutes, cleaner, filtered water will be available in the mop chamber, ready for more mopping.

Photo Credit: WaterAid/Layton Thompson

"We are so grateful to Rubbermaid for their ongoing support for our work through the HYGEN Clean Water System.

Just £15 can enable one person to access safe water, improved hygiene and sanitation for life, and so the money that is being raised will help transform lives forever."

Susie Kennedy, WaterAid

Rubbermaid Commercial Products is proud to be supporting WaterAid. WaterAid is an international non governmental organisation that uses practical and sustainable solutions to improve access to safe water, improved hygiene and sanitation in some of the world's poorest communities. WaterAid currently works in 27 countries in Africa, Asia, the Pacific region and Central America.

Starting in June 2011, and continuing for a period of not less than three years, Rubbermaid Commercial Products will donate a minimum of 1% of the value of sales of the Hygen Clean Water System to WaterAid.

In support of
WaterAid

Rubbermaid HYGEN™ Microfibre Buckets

Rubbermaid HYGEN™ Microfibre Buckets complete a highly efficient flat mop cleaning system for healthcare and sanitary maintenance applications.

- Use with Rubbermaid HYGEN™ Microfibre Damp Mops and Quick-Connect tools for a continuous cleaning process.
- Easy-to-clean, lightweight non-porous plastic construction.
- Buckets work with all Rubbermaid HYGEN™ Microfibre Cleaning Carts.

Charging Bucket

- Reduces cross-contamination when a fresh mop is used for each room or area.
- All-plastic bucket holds 10–20 microfibre damp mops.
- Each mop holds enough liquid to clean up to 23 m²; fully loaded bucket (20 mops) can clean up to 450 m².
- Safe for use in MRI rooms.

Top Down Charging Bucket

- Sieve design enables users to effectively and ergonomically moisten mops.
- Holds up to 16 Double-Sided Microfibre mops (see page 54 for mop information).
- Reduces cross-contamination when a fresh mop is used for each room or area.
- Safe for use in MRI rooms.
- Best for use with Double-Sided Microfibre Mops.

USING THE TOP DOWN CHARGING BUCKET

1. Fold the mop in half with the face material inside. Place folded mop vertically inside the bucket.

2. Pour disinfectant over the hinged sieve to moisten the mops evenly.

FGQ95088YEL

Bucket design prevents over-saturation of microfibre mops and features a measuring guide for filling with cleaning and disinfecting solution before mops are added.

1791802

Ref	Description	Material	Dimensions	Colour	Pack
FGQ95088YEL	Charging Bucket	Polypropylene	63.8 x 22.4 x 31.0 cm		1
1791802	Top Down Charging Bucket	Polypropylene	60.6 x 24.1 x 34.6 cm		3

Press Wring Bucket

- Use when flood cleaning or heavier liquid lay-down is desired.
- Press sieve provides easy, "no-touch" wringing.
- For use with microfibre flat mops up to 46 cm in length.
- Non-marking casters.
- Floor drain for fast emptying.
- Best for use with Single-Sided Microfibre Mops.

Unique, ribbed "washboard" surface removes dirt and debris from mops before wringing.

Rubbermaid HYGEN™

Microfibre Damp Mops

Superior microfibre is proven to remove micro organisms with non-disinfectant neutral cleaner.¹

- Patented zig-zag scrubbing strips for cleaning tough, dried on stains.
- Reduces water consumption up to 90% versus traditional damp mops.
- 40 cm wet mops are colour-coded with 4 ribbons, help reduce the risk of cross-contamination.
- Velcro attach system.
- High absorbency mop holds up to 0.7 l of liquid.
- Frame and handle available page 63.

R034556 recommended for safety flooring. Will not shred like standard microfibre pads. Unique single pad application for safety flooring, scrubs and cleans.

Colour-coded ribbons.

67% MICROFIBRE
22% POLYESTER
11% POLYPROPYLENE

Bleach-safe durability

Bleach-safe microfibre textiles from Rubbermaid Commercial Products are proven to last longer and provide better cleaning efficiency than non-bleach-safe textiles.

- Rubbermaid bleach-safe microfibre withstands even the harshest high-PH detergents.
- Bleach sanitizes textiles when laundering below 90°C (CDC minimum temperature when not using bleach).
- Bleach (hypochlorite based) solution is the only CDC recognised disinfectant for use in areas where Clostridium Difficile or Creutzfeldt-Jakob Disease may be present².

DURABLE UP TO
500
LAUNDERINGS
(UP TO 200 WITH BLEACH)

WITHSTANDS UP TO
90°C
WATER FOR BLEACH-FREE LAUNDERING

MONOFILAMENT MICROFIBRE

- Good: Cannot be split, one material (usually polyester), no hooks, larger size 20-40 microns

UNSPLIT BLENDED MICROFIBRE

- Better: Blend of polyamide and polyester, no hooks, medium size 15-20 microns

SPLIT BLENDED MICROFIBRE

- Best: Blend of 2 materials that are mechanically and chemically split 16 times to create ultra fine 3-5 micron³ filaments

¹ Always use cleaning chemicals or disinfectants as directed by your facility manager.

Combine Rubbermaid Pulse™ Single-Sided or Double-Sided frame with High-capacity FLOW™ Backpack system, which allows user-controlled release of solution.

- Help reduce labour costs and improve worker productivity and well-being.
- Ideal for spot cleaning and to clean anywhere where you can not take a bucket. (Stairs, tube stations, trains, ...)

HIGH-CAPACITY BACKPACK SYSTEM
Holds 5.6L for cleaning up to 820m² of floor surface. The 7.5 cm diameter opening makes refilling clean & easy.

PROTECTS WORKER WELL-BEING
Chest and waist straps distribute weight onto user's hips instead of shoulders, reducing user strain.

IMPROVED COMFORT
Backpack features venting channels to improve airflow and reduce moisture on back while wearing.

BUILT-IN CONVENIENCE
Includes built-in pockets for MSDS sheet, water bottle, and work radio/phone for user comfort and efficiency.

Combine with Backpack:
Clean up to **820m²***

Combine Rubbermaid pulse™ with optional Rubbermaid Pulse™ Caddy.

FGQ96600000 RUBBERMAID PULSE™ CADDY Capacity: 7.5L
Refills Rubbermaid PULSE™ up to 12 times.

Combine with Caddy:
Clean up to **1000m²***

SMARTER SYSTEM WITH INTEGRATED COMPONENTS:
The Rubbermaid PULSE™ Caddy is designed to be securely transported in Rubbermaid Cleaning Carts for efficient on-the-go refills.

Rubbermaid HYGEN™ Flexi Frame™

Clean faster and more effectively with new Rubbermaid HYGEN™ Flexi Frame™. Frame conforms to curved surfaces for better pickup of dirt and debris.

- Frame flexes to clean both contoured and flat surfaces.
- 5 specialised mops for every cleaning need.
- Patented arc shape pulls dirt, hair and debris toward the centre for better pickup.
- Proprietary flexible compound will not crack or split, even when used with bleach or peroxide.
- Use hand-held or with Rubbermaid HYGEN™ Quick-Connect handles and extension poles, excellent to clean hard-to-reach areas (see page 63).
- For all covers: 500 launderings without bleach, 200 launderings with bleach. *

Better surface contact. Flexible mop frame conforms to the shape of the surface being cleaned.

Flexible frame provides better surface contact for more effective cleaning.

FGQ85500

Patented arc shape pulls dirt, hair and debris toward the centre for better cleaning.

PROPRIETARY FLEXIBLE COMPOUND

- Will not crack or split, even when used with bleach or peroxide.

- Use hand-held or with any Rubbermaid Quick-Connect handle.

Rubbermaid HYGEN™ Quick-Connect Frames

Quick-Connect frames feature a flat profile that slides easily under furniture and equipment. Trapezoidal shape improves cleaning in corners and other hard-to-reach areas.

- Lightweight aluminium construction is safe for MRI rooms.
- Replaceable hook and loop strips attach all Rubbermaid HYGEN™ Microfibre Damp and Dust Mops.
- Rounded plastic end caps help protect walls and furniture.

Secure pad attachment. Aluminium frames have removable hook-and-loop strips on the underside for attaching pads. Replaceable strips slide into channels and are held in place by removable end caps.

Open-step Quick-Connect mechanism makes mop assembly and frame changes fast and easy.

FGQ57000 Quick-Connect frame with squeegee.

Durable, patent-pending nylon universal joint provides a full range of motion for efficient cleaning.

Rounded plastic end caps help protect walls and furniture.

Available in 40, 60, 90 and 120 cm widths.

Rubbermaid HYGEN™ Quick-Connect Handles and Poles.

Rubbermaid HYGEN™ Quick-Connect Handles and Pole make cleaning more efficient in every area of your facility. The Quick-Connect mechanism allows easy, time-saving frame exchange.

- Lightweight aluminium construction is safe for MRI rooms.
- Handles available in straight or ergonomic bend styles, in adjustable lengths from 115 cm to 186 cm.
- Extension poles make quick work of high-reach cleaning tasks, with lengths up to 548.6 cm.
- FGQ70100 Quick-Connect adapter allows use of Quick-Connect handles and poles with any standard threaded tool.

FGQ74500 Extends from 50.8 cm to 101.6 cm.

FGQ75500 Extends from 121.9 cm to 182.9 cm.

FGQ75000

FGQ76000

FGQ77500 Extends from 182.9 to 548 cm!

NON-SLIP TIPS

- When placed against a wall, these tips help prevent the handles from sliding and falling (standard on all Quick-Connect handles and poles).

LARGE COMFORTABLE GRIP

- Provides better stability for cleaning high areas with extension poles.

RUBBERMAID HYGEN™

- Frames and handles contain non-magnetic aluminium and are safe to use in MRI rooms.

FGQ70100BK00

Can also be used in a push/pull style.

Uniquely shaped grip and ergonomic bend to minimise awkward position.

Rubbermaid Professional Microfibre Cloths

When cleaning power and productivity come stronger together!

Rubbermaid Professional Microfibre Cloths are the ideal solution for professional usage. With the cleaning effectiveness of split microfibre and the extended durability, these cloths will keep your cleaning operation at a competitive cost-in-use.

Proven Durability / Performance:

- Split Microfibre
- Launderable up to **100 times** with bleach, **300 times** without bleach (based on internal testing)
- Cleans better & last longer
- Best absorption capacity
- Low cost alternative that delivers superior cleaning performance

Level of Cleanliness:

- Proven to remove **99.9%** of microbes
- Colour coded to prevent cross-contamination
- Consistent with HACCP
- Bleach safe

Web Foot® Microfibre Tube Mops
Designed to have greater floor contact and improved absorbency.

- Constructed with a blend of continuous filament microfibre and polyester.
- Triple the durability and withstands three times the number of launderings of standard blend mops.
- Superior absorbency and release characteristics.
- Tube design reduces drag for increased productivity.
- Lasts 200 launderings with bleach in 90°C water.
- Clean 54% faster than standard cotton mops.
- Ideal in combination with the Down Press Wringer and the Sani Duo or the Combo Bravo Bucket (see page 71-72).

RUBBERMAID WEB FOOT® MICROFIBRE MOPS PROVIDE MAXIMUM CLEANING POWER WITH BEST-IN-THE-INDUSTRY SPLIT MICROFIBRE YARNS.

COTTON FIBRE

- Cotton fibres are too large to clean crevices where bacteria, spores, and viruses hide.
- Tests prove cotton fibres remove only 65% of these contaminants.

TRADITIONAL NON-SPLIT MICROFIBRE

- While half the size of cotton fibres, non-split microfibre is still not fine enough to effectively remove pathogens.
- Tests prove non-split microfibre also leaves contaminants behind.

RUBBERMAID SPLIT MICROFIBRE

- Exceptionally fine, premium quality Rubbermaid split microfibre penetrates microscopic crevices where cotton and non-split microfibre cannot reach.
- Tests prove Rubbermaid split microfibre traps, holds and removes 95% of contaminants.

FGT81206GR00

DURABLE HEADBAND

PVC-coated mesh headband for longer product life.

BLEACH SAFE
in laundry and use.

DOUBLE-STITCHED TAILBAND
Improves durability and eliminates streaking.

Can be used with handle FGH14600 or handle R001531 in combination with mop holder R001530 (see page 69).

Ref	Description	Material	Weight	Colour	Pack
FGT81206GR00	Web Foot® Microfibre Tube Mop	Microfibre	400 g	■	6

Web Foot® Microfibre String Mops
Highly durable and absorbent for extra-long mop life.

- Constructed with a blend of continuous filament microfibre and antimicrobial yarn.
- Pre-laundered and pre-shrunk.
- Double the durability and withstands twice the number of launderings of standard blend mops.
- Recycled content: 21% post-industrial cotton and 28% PET plastic.
- Works with all traditional wet mop handles and frames.
- Ideal in combination with the Down Press Wringer and the single or double bucket and the Combo Bravo bucket or the Sani Duo.

FGA81206GR00

DURABLE HEADBAND

PVC-coated mesh headband for longer product life.

SHRINKLESS

Pre-laundered and pre-shrunk for long-lasting performance.

DOUBLE-STITCHED TAILBAND
for improved durability and launderability.

LOOPED-END BLENDED YARN
Provides superior absorbency and release for faster drying floors and improved productivity.

Can be used with handle FGH14600 or handle R001531 in combination with mop holder R001530 (see page 69).

Cotton Web Foot® Wet Mops

- Balanced blend of cotton and synthetic fibres delivers up to five times the absorbency of cotton mops.
- Looped-end, open-twist yarn reduces linting.
- Woven tailband covers more floor area per stroke.
- Recycled content: colours are 35% post-industrial cotton and 20% PET plastic; white is 35% post-industrial cotton.
- Shipped as compact mop packages.
- Can be used with handle FGH14600 or handle R001531 in combination with mop holder R001530.

Built-in antimicrobial protection

Rubbermaid Commercial Products was the first to spin antimicrobials directly into the mop yarn itself. Web Foot® Mops contain built-in antimicrobial protection for superior performance and product life.

WaveBrake® Mopping Trolleys

The WaveBrake® Mopping Trolley combines all the accessories to optimise your cleaning effectiveness.

FG777700

- Down Press Wringer can be used with Kentucky or for flat mops with the press reducer R050163.

- Dirty Water Bucket separates dirty water from clean water.
- 33 l Bucket can be easily removed from dolly for emptying.

- Ergonomic handle for easy manoeuvrability.
- Can carry two safety signs.
- Removable Maid Caddy to store and carry cleaning supplies.

- Accessory Bucket for use in trash collection or extra storage of water or cleaning supplies.

- Quiet Caster Dolly, ideal for noise-sensitive environments.

Moulded-in WaveBrake®

This revolutionary bucket shape with moulded-in WaveBrake® inhibits wave formation, which greatly reduces splashing under typical usage.

WaveBrake® Combos

The WaveBrake® reduces splashing, which means a safer environment, cleaner floors and improved productivity.

- High efficiency Down or Side Press Wringer.
- Premium tubular steel and Structural Web moulded plastic.
- Dirty water separation (optional).

Floor and Carpet Sweeper

Smaller size gets into tight spots.

- Constructed of durable Galvanised steel and tough ABS plastic
- Efficient 16.5 cm sweep path
- Easy-open debris pan for effortless cleaning
- For bare floors or low pile carpets

Dual Action Sweeper

Two types of brushes provide maximum cleaning and versatility.

- Constructed of durable Galvanised steel and tough ABS plastic
- Dual debris pans with one-touch cleaning doors
- Wide 19 cm sweep path with protective bumper
- Soft rubber wheels and brushes conform to floor surface
- Designed for large debris as well as smaller crumbs and dirt
- For bare floors or low pile carpets

Brushless Mechanical Sweeper

The most versatile sweeper in the system, this model has non-marking rubber blades that effectively sweep up dust, debris, and spills from a variety of floor surfaces. Perfect for foodservice applications.

- Constructed of durable Galvanised steel and tough ABS plastic
- Low profile for easy access around and under furniture
- Tinted window allows you to see when the sweeper needs emptying
- Two debris canisters with one-touch emptying doors
- Soft rubber wheels glide easily on carpet, vinyl, tile, wood, and more
- Wide 19 cm sweep path with protective bumper

Lobby Pro® Wet/Dry Spill Pan

Offers users the ability to clean any type of spill, solid, liquid or a combination of both, without having to bend over or touch the spillage.

- The 2 l capacity smooth-skin Spill Pan has a wide sloping front end over which spills are transported into the pan using the Cleaning Wand.
- Beyond the peak of the slope is a drop-off that will not allow liquids to find their way back onto the floor surface.
- The front of pan area also includes a recessed and replaceable rubber blade that contours itself to uneven floor surfaces to help ensure that liquids will not find their way under the pan.
- Spill Pan includes a convenient indented foot rest that allows the pan to be held firmly in place.
- The Cleaning Wand allows users to quickly and effectively transport liquid or mixed spills from smooth or rough surface floors into the Spill Pan.
- The Cleaning Wand blade is made of a soft double moss squeegee foam and is supported by a galvanised metal frame.
- It also includes a 116.8 cm metal handle for wide area spill cleaning without bending over.

How can you provide even better hotel housekeeping services to your customers?

The hotel housekeeper is the guardian of a hotel's brand. Their job is vital to ensure that guests have an enjoyable stay, and that standards of hygiene are upheld.

The main challenges for the housekeeper often include:

- The need to reduce cleaning time.
- Maintaining clean corridors while performing normal housekeeping duties.
- The lack of storage space available.
- Providing a nominal level of security and locking to prevent theft from rooms.

Rubbermaid offers a wide range of ergonomic solutions that help housekeepers meet every challenge in:

- The High Capacity Cart is designed to service up to 16 rooms.
- For smaller hotels and limited storage, the Compact Folding Housekeeping Cart combines the best in functionality with a significant reduction in size when folded.
- Rubbermaid provides a selection of different designs and finishes to suit each hotel interior.
- To prevent theft, all carts are supplied with locking cupboard spaces, while the majority of models feature locking security hoods.

Did you know?

Not every hotel has wide, spacious corridors and large areas of room space to manoeuvre a cleaning cart. That is why Rubbermaid has designed the Compact Folding Housekeeping Cart to fold down to nearly 30% less than its original size.

PROTECTIVE SECURITY HOOD

- Lockable, to keep cleaning supplies and amenities concealed from view (optional).

MOULDED-IN HANDLES

- For easy mobility down halls and around corners.

LOCKING DOOR KIT

- Conceals contents to provide enhanced security.

LINEN ACCESSORY MESH BAG

- Attached to handle area, ideal for transporting additional clean towels/linens (optional).

SILENT NON-MARKING WHEELS

- (20 cm), two locking brakes. Aiding movement on all floor surfaces.

High Capacity Housekeeping Carts, designed for larger hotels. Fully equipped they can service up to 16 rooms.

They are both light and versatile with exceptional manoeuvrability, which helps to make the housekeeper more productive whilst helping to reduce strain and injuries.

FG618900 – LARGE HOUSEKEEPING CART
Shown with optional Linen Mesh Bag, Canvas Linen Accessory Bag and Locking Door Kit.

FG619000BLA

Compact Housekeeping Carts

Ergonomic and lightweight housekeeping solutions.

- High capacity-to-footprint ratio.
- Multiple accessories available for a customised solution.

FG9T7700 Turndown and Mini-Bar Line.

Small capacity 6-8 rooms.

- Includes locking cabinet doors and one Compact Fabric Bag.
- Shown with optional Security Compartment, Waste Cover & Storage Compartment.
- Available with black locking doors.

FG9T7600 Compact Folding Housekeeping Cart.

Medium capacity 10-12 rooms.

- 28% more compact when folded-up.
- Locking cabinet doors on both sides of cart.
- One heavy-duty zipped Compact Fabric Bag, with waterproof PVC lining.
- Swivel casters and 2 wheels for easy manoeuvrability.

FG9T7800 High Security Cart.

- Includes locking security hood and cabinet doors, with access from both sides of cart.
- Two heavy-duty zipped Compact Fabric Bags with waterproof PVC lining.

FG9T9400 and FG9T9500 Deluxe Panelled Carts.

Housekeeping carts with upscale features and appearance.

- High-end styling-black and mahogany colour scheme.
- Chemical and water-resistant finish.
- High capacity-to-footprint ratio; only 56 cm wide.
- Quiet ball-bearing wheels.
- Upgraded locks on both doors.
- FG9T9500 offers a lockable hood.

Linen Collection

Attaches up to three black Fabric Linen Bags for attractive and efficient linen collection and sorting. Each bag holds up to 128 l of linens.

FG9T9200 Triple Capacity Linen Cart.

Maximum capacity in a minimum footprint.

- High-capacity zipped bags hold up to 128 l each (bags sold separately).
- Non-rusting and easy-to-clean aluminium and structural web plastic construction.
- Comfort Grip cart handles for easy manoeuvrability.
- Features 2 swivel casters and 2 wheels.

FG9T8901
Triple Waste Wire Bag Holder

COMFORT GRIP CART HANDLE

- Improved design makes the cart more manoeuvrable and comfortable.

BROOM STORAGE

- Both handles include rubber Tool Grips that hold handles.

HIGH-CAPACITY FABRIC BAG

- Fabric bags hold up to 128 l each, reducing the frequency of trips to empty filled bags. Zipped front access makes removing soiled linens easier. (Bags sold separately.)

How can you avoid accidents at work?

Don't fall into the trap of thinking accidents won't happen to you. In the EU, slips, trips and falls occur every 3 minutes, resulting in 4.5 million accidents every year in the workplace. The pain and inconvenience to staff and the public is considerable, but there is also the business cost:

- Accidents in the workplace result in more than 3 days' absence in 20% of cases.
- Cost in medical expenses, sick pay and compensation approximately 20 billion every year.
- Represent 33% of all reported injuries, with 50% of incidents involving members of the public.

Rubbermaid's complete range of signs, barricades and cleaning equipment forms your main line of defence against slips, trips and falls in the workplace.

Did you know?

Rubbermaid solutions can reduce the risk of accidents for your staff and/or for your clients by 66%.

Rubbermaid helps reduce risk in three stages:

1. WARNING

Signage warning of potential hazards and existing spills.

2. SECURING

Barricade Systems redirect pedestrians from hazardous scenes until the area is dry and safe.

3. CLEANING-UP

Address and clean the spill with appropriate, effective cleaning equipment, making the area safe for customers and employees.

- in Retail
- in Maintenance
- in Food Service
- in Healthcare

Floor Signs

Lightweight and versatile, but make a strong statement about safety.

- "Caution" warning messages printed in English, French and Spanish for effective communication to broad audiences.
- Folding design for convenient storage or transport on Cleaning Carts and Rim Caddy.
- Two-sided, FG611200 model available for use in narrow areas.

Stable Safety Signs

- Self-opening feet give sign large, stable base.
- Low centre of gravity helps prevent tipping when bumped, kicked or blown by wind.

Over-The-Spill® System

Slip resistant pads quickly cover spills.

FG425100 Over-The-Spill® Station Kit

- Station mounts easily to a flat surface.
- Durable corrugated plastic construction.
- Quick reference usage drawing.
- Large parts absorb up to 0.45 l of fluid per pad.
- Refillable dispenser.
- Bilingual directions for use (English, Spanish).

FG425400 Over-The-Spill® Pad Tablet

- Tablet mounts easily onto a floor sign or any flat surface.
- Perforated pads are easy to remove.
- Each medium size pad absorbs up to 0.34 l of liquid.
- Mildew resistant pads hold to floor even when saturated.
- Higher capacity of 25 pads saves time for refilling.

Why is skincare so important?

Looking after your skin is important, especially if you regularly use abrasive chemicals or are exposed to extreme conditions. Staff and customers value high-quality hand soaps and reliable soap dispensers – a faulty dispenser will leave customers unhappy and inconvenienced.

Experience that matters...

From the rich and luxurious to the economical, Rubbermaid Commercial Products' complete line of skin care systems suits every need. Rubbermaid's innovative dispensers range from automatic through-the-counter systems or to manual wall-mounted styles. Superior hand washing experience, lower cost-in-use, and environmentally responsible products mean Rubbermaid is your source for innovative solutions.

Encouraging healthy hand washing is good practice.

Most importantly, the range of skin care systems meets the following key needs:

- Continuous supply of soap, alcohol free and alcohol plus hand rub.
- Reliable performance with no drips or dlogs.
- Easy and low cost servicing.
- An enjoyable and safe hand washing experience.

Rubbermaid Best Practice

Follow our recommended 3-step skin hygiene regimen to improve personal wellness with our complete line of respected formulas, including barrier creams, moisturising and soaps with antibacterial agents, and nourishing skin lotions.

- Enriched Foam soaps
Rich, dense skin care formulations that washroom users will love. This high quality foam soap contains up to 70% more soap solids than other foams, and is enriched with skin-friendly conditioners and moisturisers.
- Spray soaps
The most cost-effective system available – reduces soap consumption by up to 60%. Formulas include lotion soap with moisturisers and spray soap with antibacterial agents.
- Liquid soaps
Stylish dispensers and high quality cleansers for a top class washroom image. All formulas include moisturising ingredients to soothe and soften the skin.

Smarter Skin Care

Rubbermaid Skin Care provides customers with a comprehensive hygiene programme of innovative product solutions and motivating support materials to deliver superior Personal, Economic and Environmental Health.

SUSTAINABILITY

Environmentally preferred solutions that do not compromise performance

DID YOU KNOW?

The largest organ in your body is your skin - a vital protective 'layer' that allows us to react to external conditions and regulate our body temperatures. The average human body has 1.5-2.0 square metres (16-21.5 sq ft.) of skin, between 2-3 mm (0.10 inch) thick. The average square inch (6.5 cm²) of skin holds 650 sweat glands, 20 blood vessels, 60,000 melanocytes, and more than 1,000 nerve endings.

Rubbermaid Flex™ Manual Skin Care System

New Rubbermaid Flex™ (Foam Liquid Excellence) Skin Care System's revolutionary design allows you to use either foam or liquid refills in the same dispenser.

- Highest yield of hand washes – up to 3,250 per refill.
- Rubbermaid signature moisturising complex with shea butter, vitamin E, and panthenol.
- Rich, dense lather and distinctive fragrances.
- Rubbermaid's broadest selection of formulations including hand washes, shampoos and new skin moisturising lotions.
- Superior "clean look" styling improves washroom aesthetics.
- 2 sizes to meet any capacity, space or installation requirement.
- New 75% alcohol hand rub.
- Hygienically sealed refills eliminate potential contamination.
- Box-less refills evacuate fully to reduce waste.
- Easy to use, ergonomic systems
- Dose: 0.4 ml / 0.65 ml / 1 ml

Clean Look

HOW DO YOU GIVE YOUR WASHROOM THE CONTEMPORARY COORDINATED LOOK?

Independent studies prove that a spotlessly clean, contemporary appearance for the washroom has a disproportionately positive influence on a visitor's overall impression and experience of a facility.

The same studies also report that the aesthetic image of the washroom contributes significantly to the morale and long-term retention of staff.

As a result, whenever property owners and facilities managers now update or modernise away-from-home restrooms, there is a much-increased focus on careful coordination of style and colour to improve the overall aesthetic image of the washroom.

Rubbermaid has long been at the forefront of this trend offering a premium range of matching dispensers for air, surface, and skin care under the Microburst Duet and AutoFoam brand names.

And now the company is upping the ante with the launch of the new Clean Look family of dispensers which perfectly match and complement either of the premium systems or the newly launched FLEX skin care dispensers. A complete family range with unique touch free solutions.

Available in white, black and chrome, new Clean Look family dispensers are leaders in sanitary style and offer the programmability, ease of operation, and stunning good looks that will delight both the building owner and washroom visitors.

How can you tell a winning washroom?

Everyone expects washrooms to look clean and smell clean. An immaculately clean washroom is worth nothing if unpleasant odours linger for too long. Equally, good odour control needs to be environmentally sustainable and easy to maintain – a system that needs constant supervision is definitely not an ideal situation.

Rubbermaid's air care products provide discreet and effective systems to help you make the best impression. Rubbermaid's innovative dispensing platforms deliver highly effective and cost-efficient odour control without the need for constant maintenance. Rubbermaid's world-leading fragrances enhance the washroom experience.

- Reliable and cost effective
- Simple servicing
- Flexible programme options
- Microtrans odour neutraliser does more than just cover up bad odours – it eliminates them!

Aerosol Systems

Advanced aerosol dispensing with a choice of operating programmes and refill options.

Microburst Systems

Compact system delivers full impact odour control, with three times the odour control and fragrance as ordinary refills but 63% less VOCs (volatile organic compounds) than standard aerosols.

TCell™

Small and stylish system for continuous odour control and fragrance, powered by revolutionary battery-less fuel cell technology.

Pump Spray System

A non-aerosol alternative for effective air care and odour control.

71%

FEEL A FRESH SMELLING RESTROOM IS A SIGN OF A WELL-MAINTAINED RESTROOM

DID YOU KNOW? Fragrance Fatigue:

When an individual's olfactory organ becomes saturated with a particular smell or fragrance, resulting in an insensitivity to the presence of the particular fragrance.

MICROBURST SYSTEMS

Compact, cost-effective aerosol system delivers three times the odour control and fragrance as ordinary refills.

Micro-spray technology delivers broad room coverage while high impact, long lasting concentrated fragrances with proprietary Microtrans odour neutraliser keep rooms fresher for longer.

3X
MORE ODOUR CONTROL
THAN ORDINARY REFILLS

- **DUAL FRAGRANCES**
Alternates between two complementary scents, eliminates fragrance fatigue, and keeps rooms fresh and pleasant.

Microburst Duet®

Advanced Dual fragrance Odour Control System for noticeable freshness

⚙️ Programming options:
60 / 90 / 120 / 180 days
8 / 12 / 16 / 24 hr
5 / 6 / 7 days per week

- Flexible programming options.
- Spray rotation: hour to hour, AM to PM, day to day, can to can.
- Automatically alternates between two complementary fragrances for renewed freshness.
- Each refill lasts up to 180 days and batteries last over 2 years; very low maintenance needed, up to 66% lower labour costs.
- Alternating scents eliminate fragrance fatigue.
- Programmable freshness.

TCell™

Revolutionary air care system that creates an environment that is fresh all day, every day, utilising its patented fluid delivery system

- Patented, precision dosing delivery system; one dispenser covers from 3 to 4 toilets and urinals (169 cubic metres).
- Microtrans™ odour neutraliser eliminates bad odours, creating a fresh, odour-free environment that washroom users will be happy to walk into.
- High quality, long lasting designer fragrances that your customers will love.
- Reliably delivers a consistent and continuous level of fragrance.
- New fuel cell technology delivers fresh fragrance and odour control continuously for 60 up to 90 days per refill.
- Stylish, contemporary dispenser design to complement any washroom decor.

No batteries or electrical plug-in needed – just install and go

- No added VOC's
- SILENT operation

Standard Dispenser

- Ideal for use in washrooms, corridors, lobbies, meeting rooms, hotel ensuite bathrooms, restaurants, healthcare premises, offices, retail and educational facilities.

PATENTED FUEL CELL TECHNOLOGY

The fuel cell creates hydrogen in the fragrance chamber. As each molecule of hydrogen is created it forces an equal volume of fragrance out of the chamber. Natural air flow in the washroom distributes the fragrance throughout the room.

- New fuel cell technology delivers fresh fragrance and odour control continuously for 60 or 90 days per refill.

1817146

1817147

1817144

Heavy Duty Dispenser

- Ideal for use in pubs, leisure and sports outlets, transportation, retail and educational facilities.

FG402430

Fan Operated Dispenser

- Ideal for use in quiet, low traffic areas where there is little airflow.
- Fan dispenser requires batteries.

TCell™ Fragrance Refills

Pure designer fragrances that washroom users love

- 'Clean air' technology containing no propellants or added VOCs, no aerosol can disposal.
- Microtrans odour neutraliser technology does more than cover up bad odours, it eliminates them.
- Only 4-6 refills to dispose of annually. Less refills into the waste stream.

DISPENSER INSTALLATION

Position the dispenser in an area where moving air will disperse the fragrance and neutraliser throughout the entire area, normally three to six feet from the entrance way.

TCell™

A true odour neutraliser, TCell™ refills are available in a wide range of customer preferred fragrances from mild to intense for a clean, fresh scent that lasts. Conventional gel systems lose their fragrance intensity over the life of the refill, but TCell™ remains constant.

How a fragrance intensity is perceived is a personnel, please contact your local sales representative for samples. Our sales representative can also consult you on which fragrance to use, depending on where the dispenser is situated.

How can you make sure your washroom surfaces are clean?

We all know that visible dirt is only half the story. Dirt invisible to the naked eye is the biggest threat to health and hygiene, with dangerous microbes being spread by human contact and surviving for up to 48 hours. Keeping toilets and urinals clean and odour-free is therefore an essential part of any cleaning programme.

Rubbermaid's range of surface, pipe and drain cleaning products and systems ensures that toilets and urinals are always clean, always fresh and always presentable.

Automatic Fixtures & Cleaners

- **Automated dispensing**

Powerful hygiene formulations are dispensed automatically in measured doses and flushed into the toilet or urinal.

- **Blockages prevention**

Lime scale and hard water deposits can lead to full-scale blockages. Rubbermaid's automated dispensers help prevent these troublesome deposits from forming in traps and pipes.

- **Odour-causing scale removed**

Uric scale build-up causes unpleasant odours. Prevent its formation with Rubbermaid's range of products.

Seat & Handle Cleaners

- **Clean surfaces**

Concentrated formulations creating a powerful cleaning foam that reduces both surface stains and scale with each flush.

DID YOU KNOW?

The average toilet seat harbours 49 different types of bacteria per square inch.

AUTOMATIC FIXTURES & CLEANERS

AutoCleaner

Automated toilet and urinal cleaning

- Automated toilet and urinal cleaning.
- Automatically reduces and prevents scale and stains on surfaces.
- Formulations that help to control the growth of microorganisms. Touch-free operation reduces the risk of cross infection.
- Eliminates bad odours at source and helps to maintain an odour-free environment.
- Digital dispenser communicates with Water Management.

Digital Dispenser

- Ideal for tailored operation with advanced dispensing programme settings.
- Automatic cost control – controlled operation helps to save labour and service costs.

⚙️ Programming options:
30 / 60 / 90 days
8 / 12 / 16 / 24 hr
5 / 6 / 7 days per week

Purinel Bio - Hard Surface Cleaner

- Combines biodegradable surfactants, friendly bacteria and fresh fragrance
 - removes the Biofilm, source of organic waste build-up and odours hidden deep in floor and wall grout lines.
- Combines cleaning with odour removal and helps to control the growth of microorganisms
 - cuts down on cleaning time and material costs.
- Guaranteed high bacterial counts – 70 million CFUs per concentrated ml
 - keeps working after being applied.
 - Mop water disposed of after cleaning through the drain continues the bioactive cleaning.
- Breaks down uric salts and scale naturally
 - enzyme technology breaks down the bacteria in the accumulating uric scale, without the use of harsh or corrosive chemicals.
- Suitable for use on all walls, floors and hard surfaces in a multitude of public and commercial washroom settings:
 - Leisure & Health Clubs
 - Airports, trains & train stations
 - Locker rooms
 - Retail
 - Food Service

Use with Rubbermaid PULSE™ Microfibre Floor Cleaning System (see page 61) to maintain toilet floors in prevention of uric scale staining.

R0460026

How to use

- Dilution rate: 1 part concentrate to 10 parts water for first three days. 1 part concentrate to 40 parts water each subsequent application
- Shelf life: 2 years
- Tiled walls, floors, hard surfaces, fixtures & fittings

SEAT & HANDLE CLEANERS

Clean Seat & Spray Seat

- Improves hygiene standards – toilet seats are clean in seconds.
- Reassures toilet users – alcohol-based formulation for a clean toilet.
- Easy to apply and quick to dry for toilet users comfort and convenience.
- Foam or spray formats.
- Foam dose: 0.4 ml
- Spray dose: 0.2 ml

Just spray the solution on a toilet tissue, and then wipe the surfaces clean. Clean, safe and ready for use in seconds.

FIXTURES

AutoFaucet®

With Surround Sensor technology

- Easy operation with water flow activated when hands approach the AutoFaucet from any direction.
- Engineered to provide trouble-free, leak-free operation.
- Saves money – Controlled water flow reduces water usage by up to 70%.
- Improves hygiene – Touch-free automated operation.

Reduce water usage
by 70 – 90%

UP TO

70%

WATER SAVINGS

ENVIRONMENTALLY EFFICIENT

AutoFaucet® helps reduce water usage to conserve precious resources and reduce cost.

WORLD CLASS RELIABILITY

Our patented dry cam-gear technology controls water flow. By eliminating solenoid valves, which fail, we ensure trouble-free operation.

Sanitary Waste Bins

A practical and efficient way to dispose of sanitary waste hygienically

- Slimline design and reduced height allows the bin to fit comfortably into washroom cubicles for easy access without restricting space.
- Hands-free, foot pedal operation limits direct contact.
- Smooth, ridge-free design is easy to wipe down and does not harbour dust or dirt.

20L Sanitary Waste Bin

- Ideal for larger washrooms
- Front opening lid

12L Sanitary Waste Bin

- Ideal for modern washrooms with smaller cubicles

Baby Changing Stations

Foldable and Compliant with all global safety standards

- Two models: vertical or horizontal.
- Large, deep bed with adjustable safety belt.
- Foldable design provides space optimisation.
- Easy to reach aluminium hooks on both sides for easy access to diaper.
- Bag while keeping child secure.
- Built-in shelf accommodates baby powder and other small items.
- Easy one-handed operation allows for safer opening and closing while living the other hand free.
- Antibacterial protection inhibits the growth of bacteria that causes odours and stains.
- Safe and ergonomic design that meets all applicable standards ASTM or EN 12221-1.
- Liner dispenser with moisture barrier on easy-to-service holds (up to 40 liners FG781788 each).

EASY ONE-HANDED OPERATION

Allows for safer, one-handed opening and closing while leaving the other hand free.

■ BUILT-IN SHELF

Built-in shelf accommodates baby powder, cell phone, or other small items.

■ MOISTURE BARRIER LINERS

Easy-to-service dispenser holds up to 40 liners (FG781788).

■ EASY REACH HOOKS

Hooks on both sides allow user to access diaper bag while keeping child secure.

HOW TO BECOME HACCP-COMPLIANT WITH RUBBERMAID COMMERCIAL PRODUCTS?

HACCP is a Process Control system that provides guidelines to avoid food contamination during the food preparation process and prevent unsafe food to be served or delivered. Since 2006 the European Community Directive has prescribed the implementation of the HACCP process in EU countries (EC N°852/2004 and EC N°853/2004).

RECEIVING GOODS

Challenges:

- Slow handling of goods can lead to a temperature control failure and increased risk of bacteria growth.

Rubbermaid Solutions:

- Handle goods quickly and efficiently with our easy manoeuvrable and high capacity dollies and trucks.

STORING INGREDIENTS

Challenges:

- Unclean equipment and incorrect product storage can lead to contamination and deterioration of ingredients before use.
- Need to follow FIFO management.
- Need to quickly identify contents for inventory and freshness check.

Rubbermaid Solutions:

- Our complete food storage system ProSave® keeps ingredients dry and safe from external contamination.
- Safety Storage bins have a FIFO barrier which allows for safe ingredient rotation.
- We also offer small and clear containers.

PREPARING AND COOKING

Challenges:

- Need to reduce the risk of cross-contamination while handling food (e.g. avoid contact between raw meat and cooked ingredients).
- Utensils and GN pans can melt or chip and create room for bacteria build-up.

Rubbermaid Solutions:

- Using our colour coded cutting boards will help you to manage unsafe food during the preparation process.
- Heavy Duty High heat GN pans are rated up to 190°C, reducing the risk of melting or breakage.

Why do you need to comply with HACCP guidelines?

- You avoid costs associated with poor food hygiene.
- You protect your reputation and image.

TRANSPORTING AND SERVING

Challenges:

- Transportation: inadequate insulated containers influence the heat/cold chain.
- Dented metal food pans favour bacteria build up.
- Ice management: Ice handling illnesses are caused by contaminated hands or utensils.

Rubbermaid Solutions:

- Our Catermax™, ProServe® and insulated carriers ensure that the temperature chain is respected.
- GN hard and soft lids protect contents from physical hazards.
- Dedicated ice handling system to reduce risk of cross-contamination and improve employee safety.

Respect
Temperature
chain while handling or
TRANSPORTING FOOD

WASTE MANAGEMENT

Challenges:

- Inappropriate waste handling can result in cross-contamination because of contact with contaminated waste.

Rubbermaid Solutions:

- Step-on Containers: foot operation avoids contact between hand and contaminated waste.

eliminate all
contact
with waste products

CLEANING

Challenges:

- Residues on hard-to-clean pans or containers: bacteria build up.
- Inappropriate equipment: inefficient cleaning.
- Area not disinfected efficiently after work.

Rubbermaid Solutions:

- Non-stick cold or high heat GN pans, smooth surface and rounded shape containers ease cleaning process.
- Pulse™ will help improve cleaning tasks.
- Hygen™ Microfibre mops and cloths are one of the best bacteria removers on the market.

make
hygiene
intuitive

Bisphenol A (BPA): Helping you make the Right Choice

For decades, both businesses and private households have depended on Rubbermaid products to help them store, organise, prepare, protect and transport items, including food and beverages.

Historically, polycarbonate (which contains Bisphenol A) was used in a fraction of our food and beverage products to provide the clarity, stain and odour resistance that customers demanded.

Real-world toughness, for real food service professionals

Rubbermaid Commercial Product however is among the very first organisations to recognise consumer concerns regarding the inclusion of BPA in food contact products, and identified a new copolyester material, the Tritan™, which allows us to retain all the product performance features our customers value.

This new co-polyester material offers the same unmatched combination of clarity, toughness, and resistance to staining, breaking, chemical degradation and scratches for which Rubbermaid products have traditionally been known. Its durability and performance have been rigorously tested and were found to excel in professional use conditions where repeated cleaning, dishwasherability and resistance to high temperatures are everyday challenges.

Our commitment to health and sustainability

In 2012, all Rubbermaid products formerly including polycarbonate have been replaced by BPA-free products. With this transition away from BPA, Rubbermaid Commercial Products is going a step further in its commitment to delivering improved health and environmental well-being for our customers.

The BPA-free logo has been used throughout the pages of this catalogue to clearly identify which products are now BPA-Free.

Your local Rubbermaid Commercial Products sales representative will also be able to provide more information on our new offering.

Introducing a brand new range of Professional Digital Scales

Compact & High Performance Digital Scales

- Reinforced design protects the internal and external scale components from the day-to-day abuse of the professional kitchen.
- Portion count feature keeps track of portions measured.
- Antimicrobial protection helps prevent the growth of bacteria in between cleaning.
- Removable stainless steel platform.
- AC adaptor included, or can be used with 4x AA batteries (High Performance)/ 4x AAA batteries (Compact). Batteries not included.
- Read-out pounds, ounces, and grams.

How can you improve your food decanting and storage facilities?

Serving and handling food carries a responsibility to store the food correctly – ensuring frozen and chilled food is stored at the correct temperatures and protected from cross-contamination.

Some of the challenges you may face:

- Labelling and identification are vitally important in order to allow staff to use stock in the correct date-order.
- Following FIFO (First In, First Out) food handling procedures can help to gain control of food stocks and reduce wastage.
- Space constraints – using efficient methods of storing food can help to reduce wastage and improve stock rotation.

Rubbermaid's complete range of food storage and decanting solutions allow you to greatly improve the efficiency of your food storage processes.

- Handle food quickly and efficiently with Rubbermaid's dollies and trucks.
- Our complete storage system, ProSave®, will help you to keep ingredients dry and safe from contamination.
- A wide selection of clear container types to aid the quick identification of contents.
- Our safety storage bins have a 'FIFO barrier' which provides safe ingredient rotation.

DID YOU KNOW ?

- Receiving food safely

Food delivered to your business must be:

- if it is chilled, at a temperature of 5°C or below.
- if it is hot, at temperature of 60°C or above.
- if it is frozen, not partly thawed.
- if food does not meet these requirements you must reject that food.

DID YOU KNOW ?

- Store safely.
- Keep storerooms cool, dry and well-ventilated.
- Keep dry food out of direct sunlight.
- Do not store chemicals in the area.
- Store dry foods at least 15 cm off the floor.
- Do not store cleaning equipment in storeroom.

See it in ACTION
www.rubbermaidsafetystorage.eu

- Dual opening and closing allows for one-handed access while stacked on a shelf or a table.
- Lid locks onto base to protect ingredient integrity.
- The scoop hook allows the safe storage of the scoop in the container with no contact between the handle and the food.
- FIFO Barrier supports first in, first out rotation of ingredients for improved quality and safety.
- Front and rear handles aid with safe and stable portability.

ProSave™

Safety Storage Ingredient Systems

Improve safety and productivity with new Safety Storage Bins for smaller quantities of ingredients. Lid design provides access to ingredients while stacked, on a shelf or under a prep table.

- Lid design allows for one-handed access to ingredients while stacked.
- Clear windows and ingredient labels for easy identification of contents.
- Integrated 2 Cup Safety Portioning Scoop and hook provide dedicated scoop storage for safe ingredient portioning.
- Assists in complying with HACCP guidelines.
- FIFO (First In, First Out) barrier aids in proper rotation of ingredients.
- BPA-Free

Cart and bins work together. Cart shelves have safety positioning locators to securely store and transport bins. Each shelf holds two midi bins or one maxi bin.

COMPLIANCE CODE FACTS

Rubbermaid Commercial Products' Ingredient Bin Systems are the only containers on the market that allow scoops to be safely stored inside the bin while also completely complying with HACCP-guidelines.

PRODUCTIVITY

- Scoop Hook allows scoop to be easily accessible in every Ingredient Bin.

SAFETY

- Scoop handle is held out of Ingredient Bin, preventing cross-contamination.

SECURITY

- Snap fit secures to base to make handling easier.

ProSave Ingredient Bin Systems

Store, transport and measure ingredients safely.

- Scoop hook system reduces cross-contamination and provides quick access.
- Clear windows and ingredient labels for easy identification of contents.
- Clasp secures lid on base, protecting quality of ingredients.
- Durable, industrial-grade structural web plastic construction; smooth surfaces for easy cleaning.
- Casters allow bins to be easily moved between multiple prep stations.
- BPA-Free

Brute® Sliding Lid

- Rotating clear lid with dedicated scoop storage fits on Brute® containers. Design enhances food production while improving safety compliance.
- Integrated sliding lid for one handed access.
- Clear Door for quick identification of ingredients.
- Integrated Scoop and Storage for food safety compliance and efficiency.
- 0.9 l and 1.9 l Contour Scoop Storage designed into Sliding Lid for FG262000 and FG263200 Brute Containers.
- Optional Dolly (76 l and 121 l Containers only) for easy transport through facility.
- Certified to LNE/ NSF standards.
- BPA-Free

Improve safety compliance with dedicated internal scoop storage.

Enhance food production efficiency with rotating clear lid.

Space Saving Square Storage Containers

Stackable containers store more in less space.

Crystal clear material Square Storage Containers

- Square containers store up to 25% more on a shelf than round containers in the same space.
- Available in break-resistant clear material for visibility or durable white polyethylene; both with smooth surfaces for easy cleaning.
- Manage food inventory with easy to read measurement graduations – red for quarts and blue for litres.
- Durable handles for easy transport and drain holes for proper washing and drying.
- Temperature range for clear containers: -40°C to 100°C.
- Temperature range for white containers: -28°C to 65°C.
- Assists in complying with HACCP guidelines.
- Compliant to NSF and EU standards certified by LNE laboratory.
- Commercial dishwasher safe.
- BPA-Free

Lids

- Snap-tight fit reduces leakage, helps prevent spoilage, and limits cross-contamination.
- Corner pull tab for easy lid removal.
- Lids available in two sizes to fit all containers, eliminating the need for multiple lids.
- Compliant to NSF and EU standards certified by LNE laboratory.
- Commercial dishwasher safe.

Round Storage Containers

Store food safely and efficiently.

- Round shape allows more efficient air circulation for cooling in the refrigerator or freezer.
- Stackable handled containers available in semi-clear polypropylene.

Polypropylene for better visibility

- Temperature range for semi-clear containers: -28°C to 65°C.
- Compliant to NSF and EU standards certified by LNE laboratory.
- Commercial dishwasher safe.
- BPA-Free

Lids

- Positive-lock lids (double wall seal) with corner pull tabs for keeping foods fresher.
- Writing area provided for labeling and dating of contents.
- Lids available in two sizes to fit all containers, eliminating the need for multiple lids.

How can you make food preparation easier and safer?

The safe preparation of food is of vital importance. Cross-contamination of raw meat with ready-to-eat foods is the number one cause of food poisoning.

Good food-handling practices include:

- Ensuring against cross-contamination.
- Management of unsafe food, such as raw meat.
- Regular and thorough cleaning processes, reducing the risk of bacteria growth in food storage areas.
- Utensils, such as metal pans can dent during food preparation and become ineffective.

Rubbermaid can help you avoid unsafe food handling practices by offering complete, high-quality kitchen, cleaning and food storage solutions.

- Efficient, organised food storage in transparent space-saving containers, safety storage bins, presentation dishes or carts.
- Straight from preparation to cooking, Rubbermaid's Gastronorm Pans allow easy storage, preparation, cooking and transportation of food.
- Rubbermaid's colour-coded cutting boards help you stay organised by avoiding contact between hazardous food and safely cooked food.
- Gastronorm pans will not dent or chip, reducing the risk of bacteria build up.
- Peace of mind: Rubbermaid scrapers and spatulas will not melt or deform, even at high temperatures.

DID YOU KNOW ?

- Avoid contact between raw food and cooked.
- Safely cooked food can become contaminated through even the slightest contact with raw food. This cross-contamination can be direct, as when raw poultry meat comes into contact with cooked food.
- It can also be more subtle. For example, do not prepare a raw chicken and then use the same unwashed cutting board and knife to carve the cooked bird. Doing so can reintroduce the disease-causing organisms.

Spoon-Shaped Spatulas/Scrapers

- Available with traditional flat blades for scraping and spoon-shaped blades for easy spooning, scooping and spreading.
- Blades moulded onto handles for permanent bond.
- Seamless construction to prevent dirt or bacteria build up, dishwasher safe.
- Compliant with Food Contact requirements.
- Temperature range: -28°C to 100°C
- BPA-Free

High Heat Spatulas/Scrapers

All purpose scrapers that resist scratching and high temperature.

- Scratch-resistant materials help protect your grill and cookware investment.
- Cool-touch handle is designed with employee safety in mind.
- Stain resistant; dishwasher safe for easy cleaning.
- Clean-Rest™ feature keeps the spatula blade lifted off the countertop hence reducing the risk of contamination.
- Compliant with Food Contact requirements.
- Resist up to 260°C
- BPA-Free

Stain-resistant material helps keep the scraper white and bright for long product life.

FG196200 FG196300 FG196400 FG196600 FG196700 FG196800

Blades available in 2 shapes: Pan hook helps prevent scraper from sliding into pan.

Clean-Rest™ reduces cross-contamination.

Gastronorm® Food Pans for cold preparations

- Gastronorm® Food Pans for cold preparations (resistant from -40°C to 100°C).
- Non-stick surfaces for easy food release, easy cleaning.
- Soft Sealing lids temperature range is -29°C to +65°C.
- Pans and Lids are commercial dishwasher and microwave safe.
- Not for use in steam table
- BPA-Free

HARD COVER:

- Deep, moulded handles are designed with secure finger grips to minimise food contamination and contact with food.

WRITE-IN WINDOWS:

- to facilitate date coding for inventory control.

PEG HOLE LID:

- Peg holes are used for hang drying - lids dry faster while saving counter space.

SOFT STORAGE LID:

- Seals on insert plan help reduce air flow to food - therefore maintaining food quality. No overlap on food pans allows easy use in transport.

NOTCHED HARD COVER:

- Notch allows spoon to be easily available while food remains covered; it keeps spoon handle out of food, helping to prevent cross-contamination.

DOUBLE SECURE LID:

- Easy grip tab allows for easy removal of the lid from the pan. Two-seal system makes this lid the most air tight of all the Rubbermaid options and it is ideal for longer term storage or air sensitive foods.

Gastronorm® Heavy Duty Food Pans for hot preparations

- Heavy duty high heat material is made of a highly resistant resin.
- Heavy duty high heat material gives an excellent product clarity.
- Rubbermaid Gastronorm® Food Pans can go directly from storage to bain-marie without switching containers.
- Rubbermaid Gastronorm® Food Pans and Hard Covers are temperature-rated from -40°C to +190°C.
- Clear lids feature moulded-in, cool-touch handles designed for safe handling and convenience.
- See-through container saves time by allowing quick, easy identification of contents, also reduces food wastage.
- Rubbermaid Gastronorm® Food Pans maintain their shape and positive appearance.
- Available in amber, white or black.
- Non-stick surfaces for easy food release, easy cleaning.
- Not for use with open flame.
- BPA-Free

Both Hot and Cold Food Pans meet CEN Gastronorm® specification 631-1 developed by the European Committee for Standardisation. Both Hot and Cold Food Pans with Soft Sealing Lids are designed to fit Max System™ Racks and Carts and CaterMax™ and ProServe® Insulated Carriers. All Pans, Drain Trays and Lids are also NSF Std. 2 certified.

Max System™ Racks and Carts

Increase efficiency by maximizing space, transportation and storage.

- An innovative system specially designed to work with Gastronorm®-sized food pans.
- Rubbermaid Max System™ components are made of impact-resistant structural web plastic.
- Easy-to-clean plastic construction that resists stains and corrosion.
- Designed with soft, rounded corners that are easy on walls, doors and other equipment.
- Ideal for use in cold / freezer rooms.
- Heat-resistant plastic construction allows hot baking pans (176° C max.) to be pulled directly from the oven and placed on the rack.
- Quiet handling and upscale design let workers move food directly from kitchen to dining room for fast restocking without repeated trips.
- Rubber casters available as option.
- NSF certified for cleanability.
- 12.7 cm swivel casters are non-marking: two lockable, two non-lockable.

Safety Portioning Scoop

Maintain food safety while managing food costs.

- Hybrid scoop and measuring cup allow for portioning or measuring millilitres, cups or ounces.
- Anti-roll design for storage or food use without the risk of the handle rolling into the food and posing a contamination risk.
- Permanent textured graduations for dry and liquid measurements.
- Nestable for flexible storage options.
- Durable crystal clear material is commercial dishwasher safe.
- FG9G5100 and FG9G5200 are designed to fit Safety Storage Bins (see page 130).
- Compliant to NSF and EU standards certified by LNE laboratory.
- BPA-Free

Scoop stands upright on tripod base.

Permanent graduations are moulded into the crystal clear material.

Rubbermaid Skin Care Systems

Encouraging healthy hand washing is a good practice.

The Rubbermaid range of hand washing and sanitising systems and products combine innovative dispensing technology with top quality formulations that are effective in combating the spread of germs.

For more information, see the Skin Care Solutions chapter of this catalogue.

Step-On Best

A 100 l front opening Step-On Bin, meeting users' needs: cleanability, hygiene, safety, ergonomic and durability.

Improved productivity:

- Front opening: provides easy access to the bag for emptying without the need to lift and also provides easy access for cleaning.
- The front latch simplifies the opening and closing of the doors.
- No draft angles and rounded corners for rapid cleaning.

BAG HOLDER

- Secures standard polyliners.

Ergonomically efficient:

- Robust ergonomic handle: ensures easy manoeuvrability.
- Front opening.

FRONT OPENING

- Easy to empty and easy to clean.

Quiet Operation:

- Non-marking and quiet rubber wheels.
- Silent closing thanks to a sophisticated damping mechanism.
- Large pedal can be accessed from the sides.

Enhanced Durability:

- Made with structural web and out of polypropylene: product can support weight without deforming; reduces product weight while maintaining strength.
- Curved lid prevents objects being placed on it.

Ref	Description	Material	Dimensions	Capacity	Colour	Pack

What's the best way to stock your front-of-house furniture and equipment?

In the catering and hospitality industry, your front-of-house furniture and equipment will be in constant use and facing repeated wear. In order to provide the very best service to your customers, you need robust, presentable equipment that will help your service staff deliver the best possible service and keep your guests comfortable at all times.

Some of the most common front-of-house problems include:

- Inadequately insulated food transportation containers can negatively influence the temperature chain.
- Food preparation and delivery carts need to be clean, stylish and presentable when used in front of guests.
- Transporting heavy items can lead to injuries.
- Carts need to be easy to manoeuvre in busy front-of-house areas.
- Ice management: ice handling illnesses are caused by contaminated or unwashed hands or utensils.
- Ensure comfort and safety for your little guests with practical child seats.

Rubbermaid's total front-of-house solutions provide all the answers you need for a smooth-running catering or hospitality establishment

- Food transportation: Rubbermaid's ProServe and Catermax insulated carriers ensure the temperature chain is left unbroken.
- Gastronorm Pans and soft lids protect contents from harm.
- Rubbermaid Carts now feature an upgraded design to fit all environments, with swivel casters for easy manoeuvrability and a high load capacity to reduce transportation time and physical strains of serving staff.
- A dedicated ice handling system to reduce risk of cross-contamination and improve employee safety.
- Our Sturdy Chair and Baby Changing Stations have built-in antibacterial protection to help prevent the growth of stain and odour and minimize risk of injury.

DID YOU KNOW ?

- Serving food safely for waiters.

WRONG

RIGHT

WRONG

RIGHT

- Use serving utensils with long handles to keep hands away from food.

CaterMax™ Insulated Carriers

An innovative system that allows hot and cold foods to be transported and served at the perfect temperature.

- Specially designed seal helps retain temperature without using unreliable gaskets that can wear out and harbour harmful bacteria.
- 3 convenient sizes to suit all requirements.
- Fresh, professional appearance in any catering situation.
- Works systematically with Rubbermaid Max System™ Racks, Carts and Gastronorm® Food Pans and Soft Sealing Lids.
- The range either comes with integral wheels or can be used with trolley for easy transportation.

Caterer's Trolley

CaterMax™ Insulated Carriers stack conveniently for easy transport on the trolley.

- Slotted, non-skid surface helps prevent load shifting.
- Durable structural foam deck will not rust, dent or bend.
- Three-position handle lets users push, pull or fold flat for use as a dolly.
- 4 non-marking casters, including 2 locking.
- Optional rubber casters available.

FOOD SAFE ZONE

CaterMax™ Insulated Carriers retain temperature better than competitor carriers to preserve food freshness and quality.

Serpentine seal for better cleanability maintains safe food temperatures during transport.

Smooth plastic surfaces clean easily; resist dents and scratches.

CaterMax™ features durable plastic hardware that is easy to latch and carry.

PROSERVE® Lightweight Insulated Carriers

Four layers of thermal retention provide lightweight option for safely transporting food and beverages.

- Keeps hot food hot and cold food cold safely for four hours.
- PROSERVE® carriers are between 36%–72% lighter than traditional rigid competitive products (see chart).
- Time temperature monitoring and labelling is easy with large identification window secured to each carrier.
- Range includes: 3 End Load Carriers (small, medium, large), 2 Top Load Carriers (half pan, full pan).

RIGID INTERIOR INSULATION

Expanded polypropylene (EPP) insulation is lightweight and over 300% stronger than typical Styrofoam® Insulation. EPP resists flaking, cleans easily, and provides uncompromising support.

COMMERCIAL GRADE NYLON EXTERIOR

Strong (840 denier) nylon surrounds and protects the inner layers.

NON-WOVEN POLYESTER INSULATION

Nearly an inch thick, it is the same insulation used in high-performance cold-weather gear. Will not retain moisture or odours.

REFLECTIVE VAPOUR BARRIER

Helps maintain even temperature throughout the carrier, so foods maintain their ideal temperatures.

ALUMINIUM RUNNERS

Provides pan support in End Load Carriers and are wide enough to accommodate any lid type.

Professional Delivery Bags

Designed especially for professional food delivery: hot and cold applications.

- Nylon construction for years of performance.
- 2 cm of polyester insulation for maximum thermal performance and no moisture or odour retention.
- Large content labeling windows.
- Nylon thread that will not deteriorate with use.
- FG9F3500 / FG9F3600 / FG9F3700 and FG9F4000 have a Velcro system closure and handles.
- FG9F3800 / FG9F3900 have commercial-grade zips, closures and handles.
- Hanging loop for drying and storage.
- Rubbermaid "Steam Release System" enhances thermal retention properties of our ProServe® Delivery Bags in case of heavy uses: steam will be released more effectively and moisture retention will be drastically reduced.

Sturdy Chair™ Baby Seats with Microban® Antimicrobial Protection

Sturdy Chair™ Baby Seats make safety and cleanliness a priority for your youngest guests.

- Contemporary design with Microban® technology makes it easier to clean than wood.
- Microban® provides all-over protection from bacteria growth that can cause odours and staining.
- Meets TUV and European safety standards.
- Stackable design makes for easy storage.
- Fits under standard table without tray.
- 3 point harness with one handed release.

*R050836

ASTM F404-04 and TUV Certification Standard Consumer Safety Specifications for high chairs that ensures the design and function of the Sturdy Chair™ Baby Seat meets safety specifications intended to minimize injuries to children under normal use.

FG781588 Sturdy Chair™ Tray available in dark blue, platinum, dark green, red and black.

*R050835

*R050834

*R050837

*1865517

NEW!

"Structural Web" leg bracing bar for added strength. Chairs and Trays available in dark blue, platinum, dark green, red and black.

- Convenient handle for safe, one-handed manoeuvring throughout the dining room.
- One-piece T-bar and safety harness safely helps to secure child.
- Durable moulded parts are easy to clean.

Including sticker for certified safety: placed at the entrance of a restaurant shows that the safety for little guests is a major concern.

- Microban® antimicrobial protection helps prevent the growth of stain and odour causing bacteria.
- Microban® protection is built into the chair during the manufacturing process and will not wash or wear off during the life of the chair.
- Sturdy Chair™ looks newer longer with built-in Microban® antimicrobial protection.

Sample antimicrobial effect

This information is based upon standard laboratory tests and is provided for comparative purposes to substantiate antimicrobial activity for non-public health applications. Microban technology is not designed to protect users from disease-causing microorganisms. Microban protection inhibits the growth of microorganisms that cause stains, odours and product degradation. Antimicrobial action limited to product surface.

Why is plastic the best option for material handling efficiency?

Fed up with your metal tools rusting and wooden products rotting? Plastic is the best option for providing reliable, long-lasting material handling equipment that will not let you down.

Rubbermaid's material handling products are super-strong tools that perform in even the toughest environments. Built from durable plastics such as HDPE, structural foam or structural web, Rubbermaid provides lightweight and easy-to-use products that make material handling simpler, more comfortable and more cost-effective.

- Lightweight and easy-to-clean construction.
- Quick and easy assembly using commonly available tools.
- Optimum service life: structural foam deck construction will not rust, dent, chip or splinter.
- Virtually maintenance-free.

Built to last

Many of Rubbermaid's material handling products are manufactured from durable structural foam – providing a lightweight, easy-to-clean and strong product that performs in even the toughest environments.

Duramold™ decks are formed from a precision-engineered resin and metal composite that is lighter than typical steel or wood products without sacrificing strength. This allows Rubbermaid to reduce the overall weight and improve ergonomics.

Duramold has the highest strength-to-weight ratio compared to metal, wood and solid plastic decks. This makes Duramold-based products 35% lighter but still able to carry the same payload weight.

Steel reinforced deck.

Structural foam construction.

Strength and durability

Structural foam moulding eliminates the need for a metal frame and provides a seamless, leak-proof body that won't rust, chip, dent or peel.

Why choose plastic over metal or wood?

There are three main reasons why plastic is a better choice for materials handling than metal or wood:

Versatility

- Delivers high strength design possibilities.
- More impact absorbent.
- Reduces passing damage to walls, doorways and fixtures.

Low maintenance and long product life

- Will not rust, dent, chip, peel or splinter.
- No re-painting required.
- Easily cleaned.

Safety

- Non-conductive of electrical currents.
- Waterproof and will not rot.
- Resistant to most chemicals.
- Quiet operation.

Plastic will not:

Rust

Chip

Dent

Peel

How can you avoid the pain and costs associated with repetitive strain injury and MSDs?

Rubbermaid's material handling products are designed to meet the demands of any workplace – from versatile and attractive front-of-house solutions to the rugged and durable workhorses required in manufacturing environments.

Innovative solutions

Products like Rubbermaid's Convertible Cart are designed for applications where saving time and money are a priority, while still remaining safe and simple to operate.

Committed to safety

We are committed to designing products that help promote safe work practices, including load security points, ergonomically-designed handles and lightweight construction for ease of manoeuvrability.

Ergonomics

Many types of work activities can cause musculoskeletal disorders (MSD). As well as the physical pain experienced by the sufferer, MSD are also costly for employers:

- Medical and administrative costs.
- Lost productivity.
- Absenteeism..

Move loads safely and efficiently

The variable grip-height handle on Rubbermaid carts and trucks improves manoeuvrability and reduces muscle strain for almost every user, regardless of their height.

TRADITIONAL CART HANDLE DESIGN

Angled handle helps keep wrist and bones in forearm aligned for optimum leverage while turning.

IMPROVED VARIABLE GRIP-HEIGHT HANDLE

The EU has passed several directives relating directly or indirectly to MSD:

EU directives 90/269/EEC, 89/391/EEC and 89/654/EEC legally oblige the employer to provide staff with safe working environments and appropriate ergonomic equipment.

Metal - dents and rusts

Wood - Splinters and rots

Convertible A-Frame Truck

Unique design combines the bulk load capacity of standard Panel or Bar Stock Trucks with the functionality of a Heavy-Duty 2-Shelf Cart. Perfect solution for transporting oversized, heavy loads of sheet goods, pipe, lumber, bar stock, tools and supplies in one trip.

- Easy convertibility - Spring-loaded release latches safely allow one or both top shelves to be folded down.
- Durable structural foam construction with steel reinforced frame and side rails hold bulky sheet goods firmly in place during transit.
- Large platform deck surface area and 900 kg capacity improve productivity.
 - Deck holds up to 30 cm depth of sheet goods, 15 cm on either side of truck.
- Four articulating outrigger arms fold down to cradle lumber, pipe and bar stock.
- 90 kg capacity per side.
- Moulded-in tie-down slots for load security.
- Textured deck surface reduces load slippage.
- Perimeter channel on lower deck retains small items.
- Removable, powder coated lower steel retaining bars.
- Two fixed, two swivel heavy-duty polyolefin casters with brakes, for optimal control, manoeuvrability, and long wear life over a variety of surfaces.

Convertible Platform Truck

Unique, convertible design quickly transforms the bulk load capacity of standard Platform Truck to the functionality of a Heavy-Duty 2-Shelf Cart. Perfect solution for transporting a variety of materials in multiple user environments with one product.

- Quick conversion - Push-button release latch makes conversion from heavy-duty cart to platform truck effortless.
- Two product configurations in one:
 - 61 cm x 142 cm Heavy Duty Platform Truck, 450 kg overall capacity.
 - 61 cm x 91 cm Two Shelf Heavy Duty Cart, 340 kg overall capacity.
- Ergonomic handle design improves control and worker safety.
- Powder coated steel handle with latching hasp to prevent unintended removal.
- Repositionable storage caddy improves efficiency and productivity.
- Steel reinforced deck for enhanced durability.
- Moulded-in tie-down slots for load security.
- Textured deck top reduces load slippage.
- Deep cart top lip and perimeter deck channel retain small items.
- Two fixed, two swivel heavy-duty casters provide optimal control and manoeuvrability.
- Rubber – floor surface protection, quiet operation, shock absorption.
- Pneumatic – protects load over rough indoor and outdoor surfaces.

U-BOAT CONFIGURATION

- U-boat configuration helps keep stacked or bulky goods in place; 450 kg capacity.

BUILT-IN SAFETY FEATURES

- Unique slide-locking latches prevent unintended handle removal.

RUGGED CONSTRUCTION

- Duramold's™ exclusive, precision-engineered resin and metal composite structure provides maximum load support.

Heavy-Duty Platform Trucks

Ideal for moving large, heavy loads – indoors and out.

- Ergonomic handle design improves control and worker safety.
- Steel reinforced deck for enhanced durability.
- Moulded-in tie-down slots for load security.
- Textured deck surface reduces load slippage.
- Perimeter deck channel retains small items.
- Powder-coated steel handle with retainer clips prevent unintended removal.
- Two fixed, two swivel casters for optimal control and manoeuvrability.
- Two locking casters compliant with the EN 1757-3.

Ref	Description	Material	Dimensions	Capacity	Colour	Pack

Work-Height Platform Truck

Unique, adjustable design places deck at comfortable, ergonomic height.

- Ergonomic handle design improves control and worker safety.
- Steel reinforced deck for enhanced durability.
- 900 kg weight capacity for heavy loads.
- Perimeter deck channel retains small items.
- Powder-coated steel handle with retainer clips prevent unintended removal.
- Two fixed, two swivel heavy-duty rubber casters for optimal control, manoeuvrability, and cushioned load.
- Two locking casters available separately.

Adjustable platform deck reduces the strain of bending and lifting. SKUs R050827 adjust from 70 to 90 cm high in 10 cm increments.

Side Panel Platform Truck

Ideal for transporting and retaining small packages and materials.

- Ergonomic handle design improves control and worker safety.
- Side panels easily remove to accommodate oversize loads.
- Versatile design allows for multiple configurations, 1 to 4 panels.
- End-panel retainer clips prevent unintended removal.
- Side panel cut-outs allow for ergonomic access of contents.
- Steel reinforced deck for enhanced durability.
- Moulded-in tie-down slots for load security.
- Textured deck surface reduces load slippage.
- Perimeter deck channel retains small items.
- Casters allow floor surface protection, quiet operation, shock absorption.

5th Wheel Wagon Truck

Ideal for moving heavy loads in manufacturing plants, warehouses, maintenance shops and outdoor environments.

- Fifth wheel steering ensures tight turning radius and easy manoeuvrability.
- Vinyl grip, powder coated "T" pull handle stays upright when not in use.
- T-end is removable for towing applications (tow package sold separately).
- Steel reinforced deck for enhanced durability.
- Moulded-in tie-down slots for load security.
- Textured deck surface reduces load slippage.
- Perimeter deck channel retains small items.
- Pneumatic - protects load over rough indoor and outdoor surfaces.

Semi-Live Skids

Perfect for temporary storage of materials, parts and supplies.

- Tight turning radius allows easy manoeuvrability in confined areas.
- Ergonomic handle design improves control and worker safety.
- Heavy-duty tow plate engages / disengages jack handle.
- Steel reinforced deck for enhanced durability.
- 900 kg weight capacity for heavy loads.
- Moulded-in tie-down slots for load security.
- Textured deck surface reduces load slippage.
- Perimeter deck channel retains small items.
- Durable powder-coated steel handle.
- Conveniently stack to save space when not in use.
- Jack handle sold separately.

Heavy-Duty Utility Carts Lipped shelves

Perfect for transporting materials, supplies and heavy loads.

- Ergonomic handle design improves control and worker safety.
- Easy-reach tool / accessory hooks and storage area enhances productivity and organisation.
- Customise-it fittings built in: add your own wire spools, rolls, etc
- Optimum service life: sturdy structural foam construction won't rust, dent, chip or splinter.
- Virtually maintenance free.
- 220 kg weight capacity for heavy loads.
- 12.7 cm non-marking, gray TPR casters, 2 fixed and 2 swivel, for easy and quiet manoeuvrability.
- Universal uprights makes assembly quick and easy.
- 2 locking casters compliant with the EN-1757-3.

- Two options: Top shelf flat or lipped.

- Higher, more ergonomically-shaped handle.
- Easy reach storage area.
- Hammer/ cord hook.

- General purpose hook with tool slots.
- V-notch for tubing cutting.

- Wire-spool-ready leg design.
- Locking casters.

FG450058

STAY ORGANISED

Easy-reach tool/accessory hooks provide additional storage. (FG452058 and FG452558 have storage caddies only.)

WORK MORE EFFICIENTLY

Trade Cart

Moves productivity right to the work site – a total tool storage and mobile workbench system.

- Four compartmentalised boxes to store assorted parts and hardware.
- Optional cabinet kit creates fully enclosed, lockable storage compartment to help keep tools and materials secure.
- Two storage bins hold essential hand tools and supplies.
- Designed to move easily over hard surfaces, through lifts and doorways.
- Flat surface at ergonomic height provides convenient work area.
- 4 large non-marking casters (2 swivel, 2 locking).
- Compatible with FG335388 Refuse Bin and FG335488 Utility Bin (page 174).

Fully enclosed lockable storage compartment provides tamper resistant security.

FG618000

FG618000 + FG6180L7

4 compartment boxes store assorted parts and hardware.

Serves as a versatile mobile work-station.

Ref	Description	Material	Dimensions	Capacity	Colour	Pack

Ladder Cart

Ladder Cart provides greater mobility, enhanced access, safe ladder handling and minimal storage requirements.

- Ladder Management – Mid-cart ladder positioning creates stability, security, protects walls and doors from damage. Conveys up to a 1.8 m folding step ladder through standard 201 cm doorway.
- Manoeuvrability – Compact footprint decreases turning radius for easier transport of tools and materials.
- Security – Metal cabinet and lock provide security and safety.
- Capacity – Smarter use of vertical space increases capacity. Holds up to 226.8 kg.
- Organisation – Shallow shelves make it easier to locate parts. Long Item Storage – Cart can be configured to transport florescent tubes, ceiling tiles etc.
- Casters -12.7 cm non-marking casters with brakes allow cart lock-down for safety.
- 2 swivel casters with brakes and 2 rigid casters.

TOOL HOLDER

Keeps small tools handy.

FASTENER CADDY

Empty caddy can be flipped over to create a level work surface.

LOCKING STRAP

Secure ladders with a simple snap.

CONDUIT/PIPE HOLDER

Moulded handle holds pipe or conduit for clamping and trimming.

How can you ensure the best service in your front of house areas and still use the best-looking equipment?

First impressions count. When a customer walks into your restaurant or hotel they make instant judgments about the presentation of the venue. Make sure you don't turn-off your customers – use Rubbermaid's range of professionally-styled, organised and easy-to-clean service carts.

Musculoskeletal disorders (MSDs) can be caused by repetitively moving overweight or awkward equipment. MSD can be avoided through the use of easily manoeuvrable, ergonomic and carefully designed high-capacity transportation equipment.

Did You Know?

More than 600 million working days are lost due to work related ill health each year in Europe.

Rubbermaid's materials transportation equipment for office and hospitality environments are specifically designed to help you and your staff complete their daily tasks quickly and easily.

The range includes the following features:

- New, upgraded designs to fit every environment.
- Swivel casters for easy manoeuvrability.
- Ergonomic handles to reduce physical strain for users.
- High load capacity to reduce transportation time.
- Greater durability and lower cost compared to stainless steel alternatives.
- Ultra-quiet mark-resistant casters and plastic construction help keep unwanted noise to a minimum.

Executive Service Cart

The Executive Service Cart is an elegant and versatile solution for back- and front-of-house tasks. With 20% more top-shelf capacity, it is constructed from durable, recyclable polyethylene and it is easy to clean - keeping your business looking smart for years.

ERGONOMIC ROUNDED HANDLES
 ■ Improves manoeuvrability and comfort.

WRAP-AROUND END PANELS
 ■ Conceals cart contents.

SOLID ROUNDED BUMPER
 ■ Gentle on walls and furniture.

INCREASED CAPACITY
 Accommodates two standard bus boxes on top shelf.

FG9T6800
 Attractive styling Ideal for front-of-house use.
