STEMWARE WITH SPARKLE

FEATURED:
Libbey® Stemless
& Vina™ Glasses

A glass of wine is a gift to the senses: pleasing to the eye, teasing to the nostrils, and tempting to the palate. And how it's served is a part of that gift. For red wines, select large bowls to heighten the impact of the bouquet, while our slimmer shaped stemware perfectly complements whites. Sparkling wines are best served in our flutes, designed to maximize the bubbles. Customize the glassware for commemorative events, or everyday use in your establishment, ensuring the memory will last long after the wine is gone.

BUSINESS BUILDING TIP

Engage in the increasing popularity of spirits with distilleries topping over 1300 in the US.

CHEERS

FOR BEERS

FEATURED:
Libbey® Belgian,
Giant Beer and
Pub Glasses

Beer has been a favorite beverage since ancient times, and serving it in the right glassware enhances the taste while displaying each style's unique color, clarity and characteristics. Our sturdy steins, evocative of a Bavarian Oktoberfest, help keep the beverage cool, while our short-stemmed wide-bowled goblets release more of the beer's aroma. Our beverageware also includes elegant footed Pilsners, pub styles and hourglass-shaped glasses—each perfectly designed to maximize the beer's flavor profile. For an added touch, decorate the glassware to mark a specific event—a take-home memento for your customers to enjoy for years to come.

HAND-CRAFTED COCKTAILS

FEATURED:
Libbey® Cooler and
Rocks Glasses

Mixologists take great care in choosing quality ingredients and garnishes for their delicious creations, and overall presentation is an integral expression of your business. Whether you're serving hand-crafted cocktails, mocktails, spirits or non-alcoholic beverages, let your choice of glassware be as unique as the beverage it holds. Libbey's quality design and crystal clarity showcases the elements of the drink, pleasing both the eye and the palate. Well-chosen glassware adds beauty to any establishment, and custom decorations create memories that linger in the mind the way the taste lingers on the tongue.

GUIDE FOR CARE & HANDLING

Handling Glassware for Safety and Profitability

One of the most important merchandising tools used by the owner / operator to present beverages to guests is proper glassware. To maintain the life of this investment, it needs to be treated and handled carefully. Improved handling means less breakage and damage, which translates into higher productivity and lower incidences of injury accidents. The tips included in this guide are designed to improve handling of glassware by reducing the most common causes of damage – mechanical shock and thermal shock.

Thermal Shock

Thermal shock is the result of glass experiencing a sudden temperature change. Glass holds temperature, and a rapid change in temperature can cause enough stress to result in breakage. For example, a glass that has held ice cannot go directly in the dishwasher; a glass warm from the dishwasher should not go directly into service; and

cold water or ice should not be put into a warm or hot glass or cup. In all cases, the glass need to reach room temperature before being taken to the other extreme, and the thicker or heavier the item, the more time is needed. Cracks that result from thermal shock usually form around abrasions caused by mechanical impact, increasing the chances of breakage.

Mechanical Shock

Mechanical shock in glassware is the direct result of contact with another object, such as a spoon, a beer tap, another glass, or a piece of china. This kind of contact can cause a minute abrasion, invisible to the eye, but a source of weakness in the glass, making it more susceptible to breakage from impact or thermal shock.

General Handling

- Keep adequate supplies of glassware in order to prevent recently washed items from going directly into service.
- Place guides on scrap tables for busboys to place glass, china, and flatware in separate areas.
- Check dishwasher temperature twice daily.
- Replace worn glass water brushes.
- Instruct busboys to BE QUIET. No one wants to eat in a noisy place. This will cut down on breakage of glassware, as well as help create a pleasant, quiet atmosphere.
- Never put cold water or ice into a warm or hot glass.
- Bus glassware directly into racks, or use divided bus trays with flatware baskets.
- Color code racks for different glass, china, and flatware items.
- Remove severely abraded glass from service.

GUARANTEES

● Safedge® Rim Guarantee

For over 86 years, Libbey's proven commitment to quality has been backed by our well-known guarantee. "a new glass if the rim of a Safedge® glass chips." If the rim of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer / distributor from whom it was originally purchased. Of course, this guarantee does not cover breakage.

■ Safedge® Rim and Foot Guarantee

If the rim or foot of any one-piece stemware item chips, Libbey guarantees to replace or refund the price of the glass when it is returned to the dealer / distributor from whom it was originally purchased.

✘ Sheer Rim® / D.T.E. Guarantee

Libbey's Sheer Rim / D.T.E. (Dura Temp Edge) stemware and tumblers feature a beadless edge that is first cracked off then polished to produce a fine, yet durable edge. This creates a combination of elegance and affordability in glassware for operators looking to upgrade their beverage service while maintaining longer service life. Sheer Rim / D.T.E. tumblers and stemware are guaranteed against chippage of the rim.

Lined versions of items have same dimensions as unlined glass.

The individual product images reproduced throughout this catalog are shown at approximately 25% of actual size.

Suffix Identifications

Letter suffix "**B**" means Cobalt

Letter suffix "**HT**" means glass is Heat Treated

Letter suffix "**CD**" means glass has Finedge®

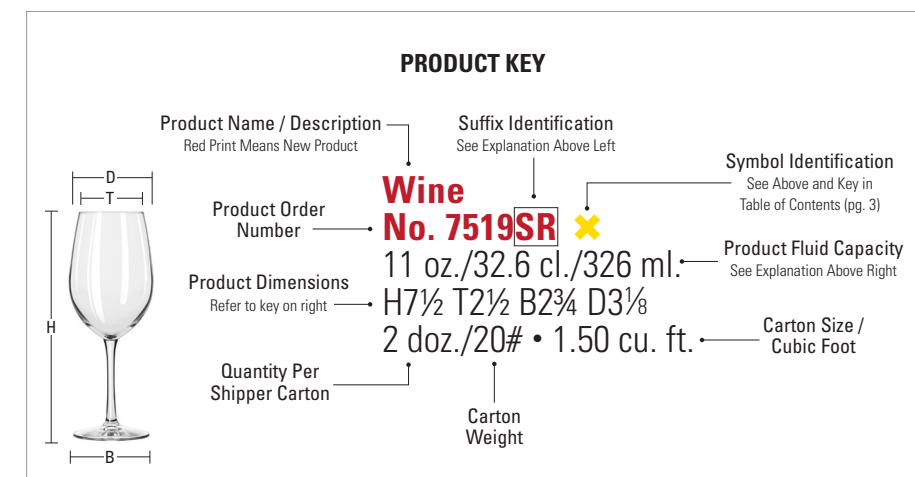

Letter suffix "**SR**" means glass has Sheer Rim / D.T.E. (Dura Temp Edge)

Glassware capacities are stated in U.S. ounces and are approximate and should not be used as a standard of measure. All fluid capacities are figured to overflow, except for those items decorated with a stated capacity line. Our capacity specifications allow for a tolerance of plus or minus 5%.

Example: a 12 oz. rocks glass could range in over-flow capacity from a minimum of 11.4 ounces to a maximum of 12.6 ounces. For more information regarding product specifications, contact your Libbey sales representative.

1 U.S. fl. oz. = 29.5727 ml. = 1.04084 Imp. fl. oz.

1 Imp. fl. oz. = 28.4123 ml. = 0.96075 U.S. fl. oz.

DIMENSIONS / CAPACITIES

Listed under each item

- H** Height
- T** Top Diameter
- B** Bottom Diameter
- D** Maximum Diameter

H-T-B dimensions are listed to the nearest ¼ inch.

D dimension is listed to the higher ¼ inch.

Listed dimensions should not be construed as specifications.
